

# EX-CONSUL IS NAMED IN "SPY DRIVE"

(Continued From Page 1)

risks these companies glean a fund of news that would be valuable to the Kaiser. If it is found they are misusing their position they will be expelled.

Chairman George Creel of the committee on public information is in New York today to discuss with press association heads the best methods to be used in handling cablegrams from abroad and at the same time taking up with the cable censors the matter of stopping spies from sending innocent appearing messages to neutral countries which may bear news to the German admiralty.

Newspapers are excepted generally from any publication of news sufficiently far in advance to permit Germany to mobilize her submarines on the transatlantic trail.

**PRESIDENT PLANS PROBE.**

President Wilson will get to the bottom of the German spy question this afternoon when he meets the cabinet. It is understood he will probe the whole problem, as well as the Fourth of July submarine story. Secretary Daniels and Secretary Baker are expected to lay before the President all information that they have on the reported battle between the transports and the submarines. After the specific question of German espionage will be taken up. President Wilson will advise cool-headed methods, counseling earnestly against any hysteria.

# Draft Lottery Expected July 10 Million Men May Be Selected

Each examining surgeon is appointed to serve in an exemption district away from his place of practice and residence, usually in another county.

The traveling expenses will be paid by the government. The list of nominations of men qualified and ready to serve as examining surgeons was prepared for the governor by the State Board of Health. Dr. W. A. Sawyer, secretary of the board, has been working the question for several weeks on the list of surgeons.

So far as is known, California is the only State to take the burden of examining drafted men from the physician to the local exemption board. Dr. Sawyer has secured the consent of California physicians to serve in the exemption districts. The examining surgeons announced for Alameda were: Alameda No. 1, Sol Hyman, Alameda No. 2, Leo L. Meisinger; Alameda No. 3, H. C. Naeke; Alameda No. 4, Dr. Robert H. Hecox, of Berkeley, will act at Contra Costa No. 1, and Dr. Ergo Majors, of Oakland, in Contra Costa No. 2.

Berkeley No. 1 will be filled by Dr. A. S. Kiefer, of Oakland and Berkeley, No. 2 by Dr. S. H. Buteau, of Oakland.

The seven districts in Oakland will be filled by San Francisco physicians respectively as follows: John H. Graves, D. H. B. E. McElroy, Lovel Langstroth, Charles Langley Porter, George J. McChesney, Rene Blaes.

In San Francisco the following physicians will fill the thirteen respective divisions: William A. Clark, Oakland; H. Koford, Oakland; N. D. Morrison, San Francisco; Duke E. Williams; Joseph Hamilton, Emeryville; W. S. Kuder, Oakland; Edward N. Ewer, Oakland; J. L. Lohse, Oakland; Harry F. Warren, San Mateo; William T. Lums, Alameda; C. L. McVay, Oakland; W. E. Strickmann, Oakland; A. S. Gillman, Berkeley.

**PHYSICIANS NAMED.**

Governor Stephens appointed today an examining surgeon to each of the 128 exemption boards of California. These physicians have all agreed to serve the nation without compensation and at considerable personal sacrifice in the important work of determining whether the men about to be drafted are physically fit for the army. The careful selection of the examining surgeons is expected to enable California to make a record in the good condition of the troops sent from the front on account of tuberculosis and other diseases which should have been detected.

The original plan of the government was to have a local physician, serving as a regular member of the exemption board, make all necessary physical examinations.

**SYSTEM IS CHANGED.**

This system, it is held, would subject the physician to the unpleasant task of passing judgment on his own patients, neighbors and friends, and in many instances would make it difficult to avoid being unconsciously influenced by the incessant questions and statements of anxious parents and friends of the drafted men.

For these reasons the governor has obtained approval from Washington for the appointment of examining surgeons whose duties will be limited to the professional services of making physical examinations and giving expert opinions to the exemption boards.

# TROOPS HALT STRIKE RIOTS; MOYER ACTS

**THIRTY COMPANIES OF SOLDIERS ON RIOT DUTY IN WEST.**

Nineteen companies of National Guardsmen today patrolled the race riot district of East St. Louis, where forty-three are known to have been killed.

Four companies of United States regulars are on guard at Globe, Ariz., to cope with the copper strike situation.

Seven companies of Illinois National Guardsmen were called to Bloomington, Ill., today following street car strike riots.

**BY ASSOCIATED PRESS.**

**LEASD WIRE TO TRIBUNE.**

DENVER, Colo., July 6.—Acting on the "grounds of treachery to the principles" of the International Union of Mine, Mill and Smelter Workers, President C. H. Moyer of that organization has telegraphed the secretary of its Bisbee local revoking its charter. "I do this to protect our union," Moyer said. "We have not authorized any action on the part of our Bisbee local."

Moyer's telegram to Charles Tammehill, secretary of the local, says: "This is to advise you that, acting under the power vested in me by the constitution of the International Union of Mine, Mill and Smelter Workers, I do hereby revoke the charter of Bisbee Local No. 108 on the grounds of violation of the constitution on the part of said local and satisfactory proof of treachery on the part of said local to the principles of the International Union."

A copy of the telegram was sent to Governor Campbell of Arizona.

**TROOPS ARRIVE.**

GLOBE, Ariz., July 6.—Although three federal cavalry troops and a machine gun company maintain order in the town, the very force of arms, the situation is still threatening.

Seven thousand workmen, many of Austrian or Slavic birth, are having the spirit of revolt preached to them hourly, it is declared. Reinforcements for the strikers continue to pour in from Miami, never far away.

A cordon of cavalrymen and a machine gun squad has been placed on guard at the Old Dominion mine and pumping station. Strikers repeatedly threaten to raid the property and destroy the mine. However, they are permitted the regulars to march through their picket lines.

It is expected that members of the International Union of Mine, Mill and Smelter Workers who were prevented previously by the members of the Metal Mine Workers' Union from returning to work in the mine, will carry out their agreement today as a troop of cavalry is kept on guard in the Copper Hill district last night. Members of the international union asserted their pleasure at the presence of federal troops in the district. No expression was heard from the Industrial Workers of the World leaders.

**MINERS MANAGERS CONFIDENT.**

Although the local secretary of the International Union of Mine, Mill and Smelter Workers has come out in support of the metal mine workers' strike at Bisbee, the mine managers there are confident the strike there will be kept in hand. The Bisbee local's action was in contravention of orders of the union and International President Charles H. Moyer last night telegraphed the secretary of the Bisbee local that its charter had been revoked "for treachery to the principles of the union."

# GERMANS USE MAKESHIFTS IN WAR MUNITIONS

**WITH THE BRITISH ARMIES IN THE FIELD, July 6.**—Some of the countless makeshifts with which Germany is tiding over her dearth of war metals and war power were revealed at headquarters.

Captured cartridge shell cases are of steel now. Apparently lack of brass and copper has made the enemy try this metal for ammunition cases for field guns and howitzers. Steel cartridges of the same basic issued to soldiers now. Attempts have been made to make these steel cases available for use in machine guns, but up to the present they persist in a tendency to burst and jam the guns.

Captured automobiles from the German lines show construction almost without brass or copper. Motor torries show fabric and wooden tires instead of rubber.

Estimates from prisoners give about 15 per cent of the present German fighting infantry made up of men 21 and 22 years old. From 12 to 15 per cent are men averaging 20. Lots of 19 are now being brought to the front in large numbers and about five or ten per cent of the fighting infantry is made up of these youngsters. German prisoners say home depots are now filling up with 15-year-old youths and even boys of 17 are undergoing examination preparatory to conscription.

# MONARCHISTS IN CHINA IN BATTLE

(Continued From Page 1)

His latest act has been to create President Li Yuan Hung a prince. His manifesto declares:

**ISSUES MANIFESTO.**

"The president has been guilty of misconduct of affairs of state; thus the militarists' opposition. So he requested us to resign over the nation and rescue the people from their miseries. The president awaits punishment, although he is not to blame. We appreciate his services and he will continue to serve us and receive imperial grace."

The northern militarists and a majority of the older officials in China welcome the restoration of the monarchy, according to advisers here. Many republicans prefer it, being dubious as to the success of a republic at this time. It is in the southern section of China, however, that the greatest opposition to the monarchy is apparent, although in a military sense this section is vastly inferior to the north.

Americans in Japan deplore the restoration and their predictions of an uprising and vast internal division appear likely to be true. There has been a certain amount of opposition manifested in the north of China, but mainly by military chiefs, and the restoration of the monarchy is not expected to be a success. Japan will firmly maintain her neutrality in the present situation and officials believe other nations will do likewise.

Chinese republican leaders may appeal to the United States to help them overthrow the new monarch and re-establish democracy.

This statement was made upon the authority of Dr. Sun Yat Sen, leader of the present revolutionary movement in Southern China and the first provisional president of the former Chinese republic.

A despatch from Shanghai today quoted Dr. Sun Yat Sen as making the following declaration to a group of journalists:

"The southern part of China is strong and united, and it will uphold the republic until the very end. We hope for Japan and but, failing in that, we will turn to the United States."

Sen Kuo Chang has been named President pro tem at Nanking.

# Canadian House Votes for Army Draft Bill

OTTAWA, Ont., July 6.—The Canadian House of Commons early today adopted the resolution offered by Premier Borden passing to second reading the bill for compulsory military service.

Exciting scenes marked the taking of the vote, which stood 118 for the draft plan and 55 against.

The vote gave the government about twenty more votes than it usually polls on important questions. This was the result of a considerable number of English-speaking Liberals breaking away from the leadership of Sir Wilfrid Laurier and joining with Premier Borden in support of the draft bill.

Before the bill was sanctioned Sir Wilfrid Laurier's proposal that the opinion of the people on drafting should be tested by a referendum was defeated by a majority of forty-nine.

The attendance of members of the house was the largest that had been seen in parliament for many years. The galleries were filled with spectators throughout the night and until the proceedings closed at sunrise. A majority of the spectators were soldiers returned from Europe and women.

A resolution presented by the French Nationalists from the province of Quebec that the draft bill should be killed by the adoption of a six months' postponement was defeated by the large majority of 166. Only nine Nationalist votes were cast for the resolution and both the government and the opposition to compulsory military service were united.

An amendment aimed at more adequate provision for dependents of men at the front was defeated, 115 to 55. Premier Borden explained that this amendment was "diplomatic" and that he would refuse to allow it to interfere with the second reading.

# APPEAL TO GOVERNOR.

Mayor E. E. Jones appealed to Governor E. E. Jones to prevent further destruction of property and it was learned from Springfield that the governor had ordered six Chicago companies of the First Illinois cavalry, now in Peoria, to be sent to Springfield at 2 o'clock this morning.

At 2:30 o'clock this morning the mob had practically dispersed after talks by Mayor E. E. Jones and Sheriff Fleisher and the release by the sheriff of one of the prisoners captured during the rioting.

After parading around the power house for an hour or more the crowd smashed windows of the street cars which had not been able to reach the barns after the power was shut off.

Rearring resumption of rioting in the street car strike here, Mayor Jones today ordered all saloons closed until further notice.

**ORDERS RECEIVED.**

PEORIA, Ill., July 6.—Orders to entrain for Bloomington for riot duty were received by Troop G, First Illinois cavalry, from Adjutant General Dickson at Springfield at 2 o'clock this morning.

# SHORTAGE ACUTE

WASHINGTON, July 6.—Despatches to the State Department say the leather shortage in Germany is so acute officials are demanding that the entire population go barefooted from the latter part of June through the summer. The city council of Littau emphasized the fact that new shoes will be scarce the coming winter.

# PUMPS

Patent leather, glazed kid, white nubuck and white Nile cloth, in both high and low heels; values up to \$5—

OAKLAND

Formerly Savoy Boot Shop.  
Our Shoes Are Better, Our Prices Lower.

# PASSENGER VESSEL WILL LAND HERE

Bringing more than 300 boosters from the north, a big steamship is to land at Oakland on July 23. The event is an epochal one for Oakland, for it marks the landing of the first big-coast passenger steamship at Oakland. The steamer is to dock at the new Albers Company wharf near the Southern Pacific mole, according to the present arrangement. The project has been fostered by the Chamber of Commerce, Mayor Davis and the Pacific Coast Advertising Men's Association.

The arrival of the boosters will mark the opening of the Pacific Coast Ad Men's convention which opens at the Hotel Oakland for a four-day session, beginning on Sunday, July 22d. The convention will begin with a mass meeting on Sunday afternoon at the Municipal Auditorium and another meeting at night at the First Congregational Church, at which time the Fiske Jubilee Singers will give a concert. A series of interesting talks have been arranged by the committee in charge for the next four days, and the program for the week will be announced in a few days.

## COINER CONFESSES

CHICO, July 6.—John M. Daly, arrested on a charge of counterfeiting, confessed, but declared those relatives who were arrested with him were innocent. He said that he intended to go to Canada soon, passing the coin.

Coins and moulds for half dollars, and five and ten dollar gold pieces were declared by the arresting officers to be nearly correct.

John M. Nichols and his wife and William S. were arrested with Daly July 4. In all twelfth the arrival of a deputy United States marshal.

## WILL PROBE BOUT

LANSING, Mich., July 6.—Governor Sleeper has instructed Attorney General Grossbeck to ascertain whether there was an actual violation of the law in staging a bout between George (Knockout) Brown and Phil Harrison at Sator Harbor, July 4. With presentation of satisfactory evidence Sheriff Hogue and Prosecuting Attorney Sterling will be summoned to Lansing and proceedings probably will be started for their removal from office.

## STRIKE IS CALLED

JEROME, Ariz., July 6.—Industrial Workers of the World today called a strike on copper mines here, effective at 3 p. m. today, to enforce demands identical with those presented at Globe by men on strike there.

## Marion Cleveland Will Wed; Tells of Romance

MISS MARION CLEVELAND, whose engagement is announced, KATHERINE GILES at her desk in Wall street.

## Daughter of Ex-President Is Betrothed to New York Man; Is Student Teacher

PRINCETON, N. J., July 7.—Miss Marion Cleveland, youngest daughter of the late ex-President Cleveland, is engaged to marry William Stanley Dell of New York city. The announcement was made by Mrs. Thomas J. Preston Jr., formerly Mrs. Grover Cleveland. The date of the wedding has not been set.

Miss Cleveland made her debut in society in 1914. For the past two years she has been a student in Teachers' College, Columbia University. Her sister Esther is engaged in relief work in Paris, for soldiers blinded in battle.

Mr. Dell only recently returned from service abroad with the American Expeditionary Force.

## MEXICANS FAVOR WAR ON GERMANY

EL PASO, Texas, July 6.—Since the pro-ally campaign in Mexico was first started by "El Universal" in Mexico City, the sentiment favoring the allies has reached Northern Mexico, and during the last thirty days a well defined movement favoring an open break with Germany and alignment of Mexico on the side of the entente allies has developed. This has been in spite of the pro-German sentiment published daily in Chihuahua City and in papers believed to be subsidized by the Germans in the North.

Prominent Mexicans, men in close touch with the capital, predict Mexico will declare war on Germany within 30 days.

According to these men all German money in the Mexico City, Torreon, Chihuahua City, and other banks will be seized as soon as Mexico declares war. German boats in Tampico and other ports will be seized, thereby giving Mexico a much needed merchant fleet, and all Germans either will be interned or deported at once, their properties being confiscated.

The Tampico oil fields would be made safe for the oil supply of the allied fleets by declaring a zone in which traffic would be restricted and the mines, smelters and mills re-opened at once to produce munitions and metals for the allies.

A reflection of this sentiment was seen recently in the statement by General Francisco Gonzalez, acting commander-in-chief of the Northeastern military zone with headquarters at Chihuahua. He was overcharged by the German firm of Ketselen & Degler for some padlocks. The manager was arrested and placed in the penitentiary. The German consul made a demand for his release. "In the name of the Imperial German Government and the Kaiser," the manager was told, "you must release him at once." "Tell the German consul," the Imperial government and the Kaiser may all go to hell," General Gonzalez answered.

MISSION OF FLETCHER  
WASHINGTON, July 6.—Enough importance was attached to the mission of Henry P. Fletcher, ambassador to Mexico, to arrange for a conference today with Secretary Lansing on board the train which is carrying the secretary to Henderson Harbor, New York, for a three weeks' vacation. State Department officials have professed ignorance as to the nature of the mission of Ambassador Fletcher. He requested permission to come to Washington three weeks ago and left as soon as authorized.

By some officials was assumed the ambassador wished to explain to the secretary the extent to which German activities have been carried on in Mexico. Reports that Mexico would enter the war as an ally of the entente powers is not regarded by most officials here as probable. They also believe it improbable that Mexico would become active in her support of Germany.

POSTPONE SPEECH  
AMSTERDAM, July 6.—It was reported from Berlin today that Dr. von Bethmann-Hollweg, the German chancellor, has postponed his promised address on peace until Saturday or Monday.

AIDS MINING MEN  
WASHINGTON, July 6.—The Senate today agreed to the House amendments to the joint resolution by Senator Walsh relieving owners of mining claims mustered into the military or naval service from performing assessment work during term of service.

SOCIALISTS HELD  
Philadelphia, July 6.—Thirteen young men and women socialists arrested last night for distributing treasonable literature were today held under bail ranging from \$500 to \$10,000 for trial. Two of the six women were charged with inciting riot.

LEMONS WHITEN AND BEAUTIFY THE SKIN!  
Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier. It costs about the cost of one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and whiten the skin, blanching as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the hidden roses and beauty of any skin.

It is wonderful for rough, red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.—Advertisement.

'HOLE' TO 'HOLDEN'  
That people invariably joked him about his name is one of the reasons given by Delvin Bennett, 31 years old, who resides at 1123 Tenth street, in a petition to the Superior Court to have his name changed to Delvin Bennett Holden.

Hole says he has suffered much embarrassment and inconvenience because of his name and that his laundry, telephone messages and telegrams get lost and mixed up with those for persons of the name of Hole, Hale and Hull and various other names that are a combination of the letters in his name or when written hurriedly and not distinctly look like his own name of Hole.

COULD 'CON' JUDGE  
J. T. E. McDonald, 26 years old, who when recently arraigned before Superior Judge Frank B. Ogden on a charge of having issued several bad checks, blamed his merchants for his predicament on the ground that they "should have had more sense and judgment than to accept the checks of someone they did not know," was this morning sentenced to eighteen months in San Quentin penitentiary by Superior Judge J. O. McConur, sitting in the criminal department. McDonald, who, according to the authorities, has operated under thirty-eight aliases, is a well-educated man and has an unusually fine appearance.

Judge Ogden, in commenting upon McDonald's unusual excuse for his crime, said that if he did not know McDonald he would have willingly cashed his checks on his facial appearances of honesty and integrity.

FOR LYON ESTATE  
Letters of administration of the estate of Harry D. Lyon, Berkeley dentist, who died from poisoning June 8, were granted to Mrs. Lida Young Lyon, the widow, by Superior Judge William S. Wells today. The estate is valued at \$1500.

Lyon, who died intestate, took poison. According to his wife his mind had become affected by overwork. The heirs are the widow and George Lyon, a son by a former marriage. Lyon had offices at Claremont and Shafter avenues, Berkeley.

SUSPECT IS HELD  
SALINAS, July 6.—Accused Langer, taken into custody here declared today is a German sailor and escaped from the warship Reinbek interned in Mexican waters. He said he entered the United States six months ago by way of the Colorado river. At the point where he crossed the border, he said, he saw many Chinese being smuggled into America.

## ADVENTISTS IN BIG CAMP MEETING

The Seventh Day Adventist camp meeting at Beulah Park, corner of Hopkins street and Twenty-third avenue, East Oakland, is in full swing today. Eight meetings a day will be held from now until the close of the annual session, a week from next Sunday night. All the meetings have been thrown open to the public, and a cordial invitation extended to all by the president of the California Conference, Pastor J. L. McElhany.

Pastor George B. Thompson of Washington, D. C., secretary of the North American division conference of the Adventists, arrived at the tent city late yesterday afternoon, and spoke in the mammoth canvas pavilion this morning on the "Holy Spirit." People who really have this gift, he said, live upright, honest, Christian lives, and are not given to fanaticism.

At the opening meeting last night Secretary Thompson said everybody "ought to be tremendously interested in what the nation is doing to conserve the food supply. We ought to co-operate to the utmost of our power in that work," he said. "He emphasized the seriousness of the times. Not one of Noah's carpenters, who helped build his great ship, escaped the great world flood, he said, as he gave home the thought that Christ is coming soon. "Many are neglecting the needful heart preparation," he continued. "Every individual should closely and critically examine his own heart before God."

Pastor George W. Rowner of Los Angeles, field secretary of the Pacific Union Conference, arrived on the camp ground this morning, as did also Ernest Lloyd, representing the "Signs of the Times," a weekly periodical published at Mountain View, Cal., and circulating widely throughout America.

Pastor E. H. Gates of New South Wales, arrived yesterday afternoon. He has just come from Australia. He was one of the first missionaries the Seventh South Wales conference.

## GEO. GOULD JR., WEDS; UNKNOWN TO THE PARSON

PHILADELPHIA, July 6.—Following a few days on the heels of his brother's wedding, George J. Gould, Jr., youngest son of the millionaire banker, was quietly married here yesterday to Miss Laura M. Carter of Freehold, N. J.

So unostentatious was the wedding of the New York millionaire's son that when the Rev. William D. Chalcraft, who married them shortly after noon, was unaware of the bridegroom's prominence. No other member of the Gould family was present, and it is believed that, although friends knew of the attentions George J. Gould, Jr. was paying Miss Carter, they were in complete darkness as to the wedding. Two men, one of them believed to have been Dr. George A. Coleman, a dentist of Philadelphia, and a woman, said to have been the bride's aunt, Miss F. J. Colburn of Ardara, N. J., witnessed the simple wedding services. It is believed George J. Gould, Jr., came to Philadelphia Wednesday and, stopping at a hotel in Broad street, accompanied by his bride, who is said to be an orphan, followed the wedding and his bride attired in a simple traveling suit of serge, disappeared.

It was learned that a compartment on a south-bound "through" train had been reserved for a "Mr. and Mrs. Gould."

George J. Gould, Jr., the youngest son of the New York capitalist, is just of age, giving his age at the license bureau as 21. His bride, who also gave her age as 21, is a handsome brunette of medium height.

Day Adventists sent to Pitcairn Island on the ship "Pitcairn," which was built on Oakland creek. Pitcairn's isolation made necessary some means of communication, as the island lies in the South Pacific, near Easter Island. It is believed that the ship "Bounty" many years ago. Pastor Gates had charge of Adventist mission work in Polynesia for years, and was later president of the New South Wales conference.

## CHANCELLOR WILL REPLY TO PREMIER

BERLIN (via London), July 6.—Imperial Chancellor von Bethmann-Hollweg will probably address the Reichstag Saturday or Monday, it was announced here today.

Previous despatches from Germany have indicated that Hollweg would take an early opportunity to make answer to the speech at Glasgow recently of British Premier Lloyd George. The British statesman gave a detailed outline of England's war aims in his address and concluded that a peace without victory was impossible.

COPENHAGEN, July 6.—The German government's over-optimistic report on the crop prospects, which were declared on June 25 to be "really brilliant," were sharply criticized yesterday by speakers in the Reichstag and means committee. They accused the government of giving the people a false view of the situation, arousing unrealistic hopes.

Herr Roesicke, president of the German Farmers' Union, also said the grain crop had suffered greatly because of drought. He expressed hope for the crop growing on heavy soils, which usually prospered in dry seasons. He said that even the early potato yield was poor, but that the late potatoes usually made up for this.

It is likely that the present session of the Reichstag will come to an end about the middle of next week, when adjournment will be taken until October. That is understood to be the program of the steering committee.

Dr. Zimmermann, the German foreign minister, told the main committee that Germany has protected the Vatican about the pastoral letter of Cardinal Mercier, in which Germany was arraigned for outrages permitted in France and Belgium.

# BAKER REVOKES CENSORSHIP RULE

WASHINGTON, July 6.—Secretary Baker has revoked his order directing to the war department for censorship all press cablegrams concerning American troops in France. The public information committee announced that "the emergency having passed," the war department would permit cable matters to go directly to the press associations or newspapers.

The committee on public information has issued the following:

The emergency having passed, the war department states that press

cables from France are again permitted to go directly to addresses without reference to Washington. These precautions, however, must continue to be observed.

One—Information tending directly or indirectly to disclosure of the number and identity of troops in the expeditionary force should not be printed.

Two—Only names of staff officers may be used. Names of line officers also reference to individuals, will not be permitted.

Three—Information calculated to disclose location of permanent base should not be printed.

Four—Information designed to betray eventual position of American force on the firing line should not be printed.

Five—All reference to returning transports must be suppressed.

No extra charge to take The TRIBUNE with you. Phone Lakeview 6000. Circulation Dept.

# Police Officers Placed on Stand in Mooney Defense

## Oakland and San Francisco Chiefs and Capt. Duncan Matheson Are Questioned

SAN FRANCISCO, July 6.—Three of the most prominent police officials of the bay cities have been placed upon the stand by the defense in the trial of Mrs. Rena Mooney, in an endeavor to unravel the fabric of circumstantial evidence which the State has woven around the defendants.

First, Chief of Police Walter Petersen of Oakland, was called to a probe into the identification of the accused by Mrs. Mooney, and this morning Chief of Police D. A. White, and Captain of Detectives Duncan Matheson were called to the witness stand in an effort to discount the theory of the prosecution regarding the presence of a jittery in front of 721 Market street.

Then the attorneys for Mrs. Mooney aimed at the structure which Assistant District Attorney Louis Ferrari has wrought when they summoned a witness to contradict the testimony of John McDonald, who identified Warren K. Billings and Thomas J. Mooney as actual participants in the assassination of Stewart.

This witness was Captain Fred Harris of the Salvation Army. He had known McDonald for three years, having met him in the Army at 550 Harrison street, he said. He testified that in the latter part of July, or early in August, he had a conversation with McDonald in which he

# NOT "BONE DRY"

CHARLESTON, W. Va., July 6.—West Virginia will not be "bone dry" under provisions of the Reed constitutional amendment if enforcement of the federal statute is left to state prohibition officials. This was indicated last night in a statement by State Prohibition Commissioner Hallahan, on receipt of word

that the Department of Justice had construed the Reed amendment as operating to render void the so-called "quarter-month" law enacted by the West Virginia legislature.

"The legislature has defined the prohibition policy of this state—that is, to permit the bringing into the state for personal use as much as one quart of intoxicating liquor within a period of thirty days," said Hallahan's statement. "The state prohibition department will co-operate actively with the federal authorities in every particular where there has been violation of our state law. As to the enforcement of the Reed amendment, which has been held to be the importation of one quart a month, that duty would seem to lie wholly with federal agents."

## The Park Shoe Co.

### SUMMER Clearance Sale

is offering exceptional values that attract large patronage.

# 10% to 33 1/2% Reduction

On Every Woman's Summer Shoe, Pump, Strap Slipper and Oxford in our entire stock

For over fifteen years we've been busy building up the largest shoe business in Oakland, and one thing we've learned that it is better to sell at a great sacrifice at the end of the season than to carry over any merchandise.

Every year we hold a clearance sale. This year because of remarkable market conditions it means more than ever before.

# DEATHS

CAMACHO—In Elmhurst, July 5, 1917, Leopoldo, beloved wife of Francisco Camacho, loving mother of Mrs. Mary de los Angeles, Mrs. Marietta, and Mrs. Christine Thieriot, a native of Mexico, aged 38 years, 5 months and 20 days. A member of the P. R. S. Society. Friends and acquaintances are respectfully invited to attend the funeral services Saturday, July 7, 1917, from 8 o'clock to 10 o'clock, at 100th avenue and East 14th street, where a requiem high mass will be said for the repose of her soul commencing at 10 o'clock. Interment, St. Mary's cemetery.

WILLIAMS—In this city, July 4, 1917, William J. Williams, beloved husband of the late Frances J. Williams, loving father of Mrs. L. M. Williams, Mrs. Charles, and Mrs. Rose A. Williams, a native of Hayward, Cal., aged 42 years, 10 months and 25 days. Friends and acquaintances are respectfully invited to attend the funeral services Friday, July 6, 1917, at 1 o'clock p. m., from N. S. East 14th street, where a requiem high mass will be said for the repose of his soul commencing at 9 o'clock. Interment at 9 o'clock. Friends and acquaintances are respectfully invited to attend the funeral services Friday, July 6, 1917, at 1 o'clock p. m., from N. S. East 14th street, where a requiem high mass will be said for the repose of his soul commencing at 9 o'clock. Interment at 9 o'clock.

GRABER—In San Francisco July 5, 1917, Mary Solome Graber, beloved mother of Frank and Albert Graber of Minneapolis, Minn., and Mrs. Louise Pinger of Berkeley, a native of France, aged 58 years, 3 months and 1 day. Friends are invited to attend brief funeral services tomorrow (Saturday), July 7, 1917, at 9 o'clock a. m., at the "HomeLife Place," the Truman Undertaking Co., 2100 Broadway, avenue at 30th street, Oakland. Interment, Minneapolis, Minn.

MADSEN—In Hayward, July 5, 1917, Samuel K. Madsen, beloved husband of Mathilde Madsen and loving father of Chester A. Madsen and Samuel L. Madsen, a native of Denmark, aged 62 years 6 months and 24 days. A member of the P. R. S. Society. Friends and acquaintances are respectfully invited to attend the funeral services Friday, July 6, 1917, at 1 o'clock p. m., from N. S. East 14th street, where a requiem high mass will be said for the repose of his soul commencing at 9 o'clock. Interment at 9 o'clock.

ROSS—In Alameda, Wash. July 3, 1917, A. Ross, beloved daughter of C. E. and Carrie Ross, granddaughter of W. J. and Julia Ross, a native of Oakland, Cal., aged 11 years.

TERRELL—In this city, July 2, 1917, Mrs. Alice Wadsworth Terrell, beloved wife of the late George W. Terrell, mother of William W. Terrell and David C. Terrell, a native of Wisconsin, aged 70 years, 1 month and 10 days. Friends and acquaintances are respectfully invited to attend the funeral services Thursday morning, July 5, 1917, at 10 o'clock a. m., from the residence of Mrs. Terrell, 20th street, Oakland. Interment, Oakland.

WILLIAMS—In this city, July 5, 1917, William G. Williams, beloved husband of Mrs. Williams, a native of Wales, aged 67 years, 7 months and 3 days. Friends and acquaintances are respectfully invited to attend the funeral services Friday, July 6, 1917, at 2 o'clock, from the West Presbyterian church, Harrison street, between 10th and 14th streets.

# AT RADIO SCHOOL

To become expert in the field of wireless telegraphy and assist in the present war three Oakland boys are attending the radio school at Harvard University. The school is conducted by the United States Navy. The boys are Arch MacDonald, Anson Bilger and Allan Forbes. The school at Harvard is encamped on the university campus and attended by about 200 young men.

The boys are being taught by experts and advanced work is being studied.

Anson Bilger was formerly connected with the Oakland Paving Company. MacDonald was engaged in the insurance business in this city and Forbes, until sent East, was in charge of the high-powered wireless station at Bolinas.

# ISSUES ANNUAL

Home industry and home patronage is featured in the splendid annual edition of the "Alameda County Workman," published by the Alameda County Workman's Association. The annual is a thirty-two page of well-arranged matter. "Labor in History," by Robert Burns Bruce, is the leader in the annual and gives a concise account of labor and its history and participation through the annals of history.

An editorial entitled: "Ten reasons to buy from home merchants" and brief reviews of the doings of the various councils in Alameda county go to make the greater amount of the news matter.

# INDEMNITY DEMANDED

LONDON, July 6.—According to a despatch from Buenos Ayres to the Times, the Argentine government has demanded an immediate apology and indemnity from Germany for the torpedoing of the Argentine vessels Orana and Toro and a guarantee that the Argentine flag will be respected in the future.

# CAUSE OF DESPONDENCY

Despondency caused by indigestion and constipation and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and regulate the bowels. For sale by Osgood Bros. Drug Stores.—Advertisement.

## GOMPERS IN FRAY WORM BAD PEST

NEW YORK, July 6.—Twenty-five labor leaders, led by Jacob Panken, a Socialist lawyer, as the organizers of the Conference for the Maintenance of Workers' Rights and Standards, at a meeting prepared plans for fighting what they termed the "conservative attitude of Samuel Gompers, president of the American Federation of Labor. Gompers denounced the organization at a meeting of the Central Federated Union last week, saying it was designed to supplant the activities of the American Federation of Labor. Leaders of the movement defended their organization on the ground that Mr. Gompers had "betrayed labor's rights and smiled on capital."

SACRAMENTO, July 6.—The farmers of Inyo county have appealed to the State Council of Defense for means of relief against a new species of worm which has infested the alfalfa fields there and which threatens destruction of growing crops. According to a communication from E. L. Herzinger, forest clerk for the department of agriculture, millions of these worms are to be found there. The state council in an effort to aid Inyo farmers has rushed two of the worms, sent by Herzinger, to the College of Agriculture of the University of California with a request that means be found to combat the new pest without loss of time.

## Children Love

## Trew's Color Music

Because of Its Simplicity and Beauty

Many children who might otherwise become real artists drop the study of music because blind, tiresome drill, requiring ceaseless repetition, arouses no enthusiasm. COLOR MUSIC ELIMINATES THE DRUDGERY OF LEARNING TO PLAY THE PIANO.

WITH COLOR MUSIC anyone without knowledge of music whatever can play difficult pieces immediately, and can transpose them into any key at sight.

PAUL STEINDORFF, Pacific Coast's best known musician, says:

"Color Music should eliminate many years of study and simplify to a great degree the reading of staff notation."

COURSE OF LESSONS covering a period of five months is included with Trew's Color Music System. These lessons if given ordinary study will enable anyone at the end of five months not only to play from music written in color, but all music written by note, as readily as if he or she had taken lessons in the ordinary manner for a period of years.

SPECIAL FREE DEMONSTRATION DAILY, Edison Studio, Third Floor. Mail orders filled. Write for particulars.

# U.S. SHIPPING LOSSES GROW IN 6 MONTHS

WASHINGTON, July 6.—American shipping losses, due to submarine activities during the first six months of 1917, amounted to nine times the total losses of the two previous years. Dr. William C. de Lancy, chief of the United States War Risk Insurance Bureau, told the United Press today. Since January 1, 1917, the bureau has insured \$441,761,518 of cargoes with a loss of \$9,200,000. Previous to that time the bureau had lost only \$800,000, due to submarine sinkings. Since the beginning of the war in 1914, the total salvage of vessels sunk amounted to only \$59,055,837. Millions of dollars are saved to American exporting firms every month by the bureau in insurance rates. On the \$623,864,598 worth of cargoes so far insured the rate has been a little less than two and a half per cent.

American insurance firms, as a rule, are refusing to insure cargoes entering the war zone, but where they are willing to take the risk the premium runs higher than 15 per cent. Marine insurance rates in Great Britain run from 8 to 16 per cent, while the average European rate is between 8 and 12 per cent.

The monthly average of ships insured during the two years previous to 1917 was only 1,700 vessels. The number insured during June, 1917, was 1405.

Up to date the bureau has not lost a dollar on the insurance of seamen and officers under the provisions of the new \$50,000,000 insurance bill recently passed by Congress. It is estimated that before the war is terminated about 280,000 seamen will be insured at an average insurance of \$150 per man. The cost of insuring these men will be borne by the owners of vessels upon which the men sail.

## CHILDREN DIE IN COLONY OF EASTERN SECT

OKMULGEE, Okla., July 6.—Three or four children are dying from illness each week, and half the number of infants in the colony are afflicted with the malady, the report made here today by a committee of a civic organization which investigated sanitary conditions in a colony of members of a religious sect, known as the "True Followers" near here. The state health board has been asked further to investigate conditions here.

Thus far, the committee said, eight children have died, and that twelve are now ill.

## CAN EAT WEEDS OUT OF OCEAN

WASHINGTON, July 6.—The seaweeds of Hawaii form the subject of an extensive paper by Professor Vaughan MacCauley in a recent issue of the American Journal of Botany.

"The Hawaiian Islands," he says, "rise abruptly from abyssal depths. Many of the shore lines are exceedingly precipitous. Certain geologists have compared the islands to the summits of a row of obelisks. The area of shallow water is much more circumscribed than is generally supposed.

"The tracts possessing life conditions favorable for the development of marine algae are distinctly limited in area and location in distribution. The lower, older islands to the northwest have the largest reefs and shallows. These areas become progressively smaller toward the high, young volcanic islands to the southeast.

"Weeds are plentiful. The island of Hawaii, youngest member of the archipelago, is distinguished by an almost entire absence of low beachlands, reefs, lagoons and shallows. These topographic conditions have profoundly influenced the algal and other marine life of the Hawaiian group.

"An hour's cruise from Honolulu, in an outrigger canoe, over a typical fringing reef is sufficient to reveal the five main stages of the algal flora. The inshore waters, with a bottom of coral sand and mud, sustain a number of the quiet water forms.

"The next zone is one of deeper water, where waving is no longer possible. The sunny transparent water is three to ten meters deep, but becomes shallower as the edge of the reef is approached.

SEVENTY-FIVE EDIBLE. "Does more extensive use of marine produce than did the Polynesian in his sea-girt island world. About seventy-five species were used for food and for these the ancient Hawaiian has specific names.

In case food prices keep on soaring Hawaiian authorities say this seaweed may be used to combat the high cost of living, as some of the dishes prepared from it are not only nourishing, but delicious.

## TROUSERS CAUSE OF YOUTH'S WOE

NEW ROCHELLE, N. Y., July 6.—Because his mother would not let him wear long trousers, Frederick Miller, 14 years old, of Baltimore, ran away from home and enlisted in the army. He was found at Fort Slocum today by a police lieutenant, Frank Cody. He wept when he learned he may have to return home. Fred is five feet six inches tall and weighs 160 pounds.

About May 2 he disappeared from home, borrowed a pair of long trousers from a negro and went to Washington, D. C. He easily passed for a man of 21 years and was sent to Fort Slocum to be drilled. Last week Fred wrote to his mother, saying he was well and happy, though wearing breeches and leggings. He did not say where he was, but the New Rochelle postmark and the reference to leggings gave the mother a clue.

Lieutenant Cody appealed to Lieutenant Colonel Maudlin, commandant at Fort Slocum, to produce Fred. The boy begged to be allowed to stay a soldier. Colonel Maudlin has advised that Mrs. Miller leave the boy in the army, because if he were discharged and given a false statement about his age it "would be a black mark against him all his life."

## HIRSUTE COSTS

CHICAGO, July 6.—It is James Hall's boast that he is the proprietor and manager of the finest set of whiskers outside of the House of David at Benton Harbor.

Every day it has been his wont to air his whiskers in Washington Square park, where they have been the admiration of thousands for years. So large a crowd collected around James yesterday that a smooth shaven park cop arrested him for obstructing traffic.

Gathering his whiskers in one arm, the old man stood before Judge Caverly awaiting sentence.

"Ten and costs," said the magistrate, "and when they get you in the bridewell they'll soon clip that foliage."

"Hold," cried an anguished voice from behind the bushes. "I'll pay the fine."

And drawing \$625 from his inner vest pocket the whisker kind obtained a receipt and departed.

## CHICKENS SAVED

HOOD RIVER, Oregon, July 6.—Forrest L. Moe, a rancher of the Hood district, says he has lost no chickens from the numerous hawks that frequent the neighborhood, because of a well defined system of signals maintained by the Chinese pheasants on the place and the barnyard fowls. The Chinese pheasants have solved the hawk problem for us. The wild birds eat up a good deal of corn, but I figure that they are worth it.

"The latter," says Moe, "immediately hurry their little chicks to safety, and thus the Chinese pheasants have solved the hawk problem for us. The wild birds eat up a good deal of corn, but I figure that they are worth it."

Doing Good. Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Edmestown, Wash., says of it: "I used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation." ## Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a twinge of pain or soreness before applying. Afterwards, they may sound like a dream to corn-pestered men and women who have been cutting, filing and wearing torturous plasters. Corns lift off and calluses peel off as if by magic.

A small bottle of freeze cream is available at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off. The freeze cream dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice. —Advertisement.

## INFLAMED AND ITCHING SKINS NEED POSLAM

If you suffer skin distress, do not let another day pass without trying Poslam, which so quickly eradicates Eczema, Pimples and all skin affections. Apply a little at night and see actual improvement next morning.

Used for any itching skin trouble relief is immediate. Itching stops; no need to scratch; no discomfort.

Think what this means to you if you are tortured and embarrassed by any aggravating skin disorder!

Poslam is absolutely harmless. Sold everywhere. For free sample write to Emergency Laboratories, 243 West 4th St., New York City.

Three your skin to become clearer, brighter, better by the daily use of Poslam Soap, medicated with Poslam. —Advertisement.

## Gar's Bedtime Stories

(By Howard R. Garis.)

"Tap! Tap! Tap!" came a knock on the door of the hollow stump bungalow one morning. Uncle Wiggly Longears, the rabbit gentleman who lived in the bungalow, called out:

"Please come in!"

In hopped Dickie Chip-Chip, the sparrow boy postman, with a letter for the bunny gentleman.

"Ha! That's nice!" explained Uncle Wiggly as he took the envelope. "I hope it's a valentine."

"I believe this is one of 'em," laughed Dickie. "This is July, Uncle Wiggly!"

"Oh, so it is. However, I'll read it," said Uncle Wiggly, and he opened the letter.

"It is giving me a little bit of trouble," said the letter, "but I have it!"

"This must be from Alice in Wonderland," said Uncle Wiggly, and he read:

"So, telling Nurse Jane Fuzzy Wuzzy, my muskrat lady housekeeper, that he is giving me a little bit of trouble, I have it!"

Uncle Wiggly looked at the letter and then at the door. "What a queer tea party when the March Hare smashed the Hatter's!"

The tail of the poor little Dornose was caught fast in between two stones and he could not move. But Uncle Wiggly quickly loosened it for her and she was very thankful to get out.

"I was afraid I'd be late," she said. "I have to hurry on to help the Queen of Hearts put sugar on the tarts for the king's birthday. I'll see you again, Alice Wiggly!"

"I hope so," spoke the bunny uncle, as he hurried away to get his new hat, all while wondering whether or not he would see Alice from Wonderland again.

Uncle Wiggly reached the green meadow, but no one else was there. He looked up and down, and all around, but there was not even an old hat in sight, to say nothing of a new one.

"I wonder if this letter is an April Fool joke," thought the bunny uncle, taking from his pocket the envelope which had given him. "No, it can't be. It's the month of July. It can't be April Fool day, any more than it can be time for valentines," said the bunny. "But I wonder where my hat is?"

Hardly had Uncle Wiggly said this, and then, all of a sudden, a voice cried: "Where's your hat?"

With that something seemed to drop down from the clouds, or maybe it was from one of the trees. But whatever it was, it completely covered Uncle Wiggly out of sight. It was just as if you took a large bowl and turned it upside down over a grasshopper, only, of course, Uncle Wiggly was not a grasshopper, though he did jump around a lot.

And, at first, in the sudden darkness, the rabbit gentleman thought it was a bowl that, perhaps, the circus elephant's little boy had turned over on him just for fun.

Then, making his pink nose twinkle very fast, so that it shone in the dark like a fiery lantern, Uncle Wiggly was able to see that he was inside a large hat. For when it had dropped over him he had shut out all the sunlight.

"Yes, this is a hat," said Uncle Wiggly to himself. "But what a funny way to give it to me! And it's so large! Instead of my head it is the hat. This will never do! I must get out and see what the trouble is. This must be the elephant's hat, it's so large."

But when Uncle Wiggly tried to lift one edge of the hat, he found it was so heavy he could not. Some one seemed to be sitting on top of the hat, which was shaped like the silk stovepipe one

## Society

Just as soon as one of our men or women who have gone forth into the world and really captured honors worth while returns for a little visit with the home folk, Yosemite or Del Monte or Tahoe lures and away they go again, so that after all society has but little chance to lionize them. Just this has happened with the welcome which the smart set had hoped to give Raymond T. Baker. It is Tahoe with its pleasurable plans for the Fourth of July which held out a stronger inducement than anything which Oakland or Piedmont could offer. And immediately he joined the summer colony there for a week, which reduces by just so much the playtime of a month which he was to spend with his family.

For so young a man has had a wonderful career, varied enough for even the most restless, with change of scene and change of responsibilities and always managing to perform his offices with grace as well as efficiency. As warden of the state prison in Nevada, he introduced the "honor system" which took away the argument of the old conservatives. He was in the diplomatic service in Russia and now is Director of the Mints with headquarters in Washington.

Mr. George W. Baker, resides in Piedmont as does also his sister in law, Mrs. Cleveland Baker, the charming daughter of former Senator George C. Perkins. He is their house guest this summer. When Baker returns to the bay cities in a few days there will be a few little gatherings of his old friends, arranged most informally to do him a bit of honor before his return to Washington.

Mrs. Margaret Cameron Lewis who is known to the magazine world as Margaret Cameron is another who has achieved a nationwide reputation of no insignificant sort and who has returned to her old home for the summer. Since her marriage to Lewis a few years ago her residence has been made on the Atlantic coast.

Uncle Wiggly always wore. And a voice cried: "Hold it tight and he can't get out!"

"Oh, I'm holding it tight!" was the answer.

Then Uncle Wiggly knew what had happened. Some one had put two bad old skilley-scalley alligators. They had borrowed the Wonderland Hatter's hat, which was very large. Nor had they told the Hatter what they wanted of it, for if they had he never would have let them borrow it to make trouble for Uncle Wiggly.

The alligators had climbed up the tree with the big hat, and after sending Uncle Wiggly the note they had waited until he came to the tree. Then they dropped the hat down over him and sat on it.

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

"And I can't get out!" cried Uncle Wiggly. "That's the worst of it! I can't get out, and those bad alligators will reach under and grab me and eat me!"

Mrs. Frank Gilbreth, the former Miss Lillian Moller, will come to California with her children, early next month to spend some weeks with her parents, Mr. and Mrs. William Moller. Her husband is one of the best known engineers of the country, having accomplished some notable feats, and at the time of the earthquake came west to take a big part in the rebuilding of San Francisco.

Mrs. Gilbreth is a graduate of the University of California where she took honors and later won her master's degree. Of late years she has turned her thoughts toward literature and has published several books which have brought her no little recognition.

The Mollers are among the oldest families in Oakland and the return of the older daughter will be the signal for a little round of informal entertaining which will assemble interesting groups of her intimates of former years.

Miss Florence Woolsey was a hostess last evening, claiming a half dozen friends in honor of Miss Elise Ge Cello and Miss Kathryn Ge Cello. Hotel Shattuck gave its July dinner to the smart set who still love the pretty pastime, and it was this function of which Miss Woolsey took advantage.

Mrs. Ge Cello and her daughters are remaining at the Shattuck through the summer with Ge Cello coming down from Sacramento for the week ends. Their home is really in Chicago but the fortunes of business have sent Ge Cello to Sacramento with the warm weather driving the family to the bay cities. The two attractive girls are being much of by the younger Berkeley set.

The ranks of the younger set are being reduced gradually by the demands of a stern war and the departure of Austin Sperry is being generally bewailed by society on this side of the bay. Sperry who was among the first to enter the Officers' Training Camp at the Presidio, has won the rank of captain and has received the orders which send him to Fort Sam Houston, Texas. Whenever there has been a need for funds in one of the philanthropic organizations about the bay all that was needed was a word to Captain Austin Sperry and presto, there was a benefit entertainment of which any professional might be proud. He was a leader in the Frolickers, that clever little Berkeley club which has given so many programs to swell the finances of many a needy charity and which numbers Mrs. T. Arthur Rickard, Miss Amy Holmes, Miss Mary Gayler, Miss Dorothy Woodworth, Miss Carol Day, Harris Allen, Leslie Taylor and several others.

Dr. Edilberto G. Anderson and Mrs. Anderson, the former Miss Dorothy Taylor with Mr. and Mrs. Frederick Westfall of San Francisco are motoring through the picturesque region adjacent to Lake Tahoe. They left in time to spend the holiday in the elaborate festivities which were planned by the smart colony at the lake. They will return to town within a few days. Later in the season the

## The Lone Wolf

By LOUIS JOSEPH VANCE

(Continued from yesterday.)

The hue of his hair, a clamorous red, was the spring of his secret sorrow. By that token he was a marked man. At irregular intervals he made frantic attempts to disguise it, but the only dye that would serve at all was a jet-black and looked like the devil in contrast with his high coloring. Moreover, before a week had passed, the red would crop up again wherever the hair grew thin, lending him the appearance of a badly singed pup.

His pet superstition was that as long as he refrained from practicing his profession in Paris, Paris would stand toward him as an impenetrable tower of refuge. The world owed Bourke a living, or he so considered, and it must be allowed that he made collections on account with tolerable regularity and success, for Paris was tax-exempt as long as he kept it alone.

Not only did Paris suit his tastes excellently, but there was no place, in Bourke's esteem, comparable with Troyon, where he could find a quiet house. His visits were unannounced by trials of rival hostesses, and Troyon was always expecting Bourke for the simple reason that he invariably arrived unexpectedly. With a warning note of caution, he stopped as long as he liked, whether a day or a week or a month, and departed in the same manner.

His daily routine, as Troyon's came to know, varied but slightly. He breakfasted about half after ten, lounged in his room or the cafe all day if the weather was bad, or strolled peacefully in the gardens of the Luxembourg if it were good, dined early and well, but always alone, and shortly afterward departed by cab for some well-known bar on the Rue Drouot; whence, it is to be presumed, he moved on, either to the theatre, for he never was home when the house was officially closed for the night, and the hour of his return remained a secret between himself and the concierge.

Now inasmuch as Bourke was never a tractive gait, and he never, it is to be presumed, rolled over and snored for glory and the saints, it was against human nature to resist the lure of that dressing-table, Marcel seldom departed without a coin or two.

He had yet to learn that Bourke's habits were those of an Englishman, who goes to bed without leaving all his pocket money, plain sight and carefully catalogued in his memory.

One morning in the spring of 1904 Marcel served Bourke his last breakfast at Troyon's.

The Irishman had been on the prowl the previous night, and his rasping snore was audible even through the closed door. Marcel knocked and, receiving no answer, used the pass-key and entered.

(Continued tomorrow.)

Andersons are planning a few weeks' outing in Sonoma county, with brief sojourns at various of the popular Russian river resorts. With Mr. and Mrs. Westfall they returned early in June on a motor trip through the Santa Cruz mountains which included a visit to the Big Basin and a few days at Del Monte.

Dr. Anderson who is the chancellor to the Peruvian Consul in San Francisco is the youngest man to have secured an appointment as consul in the world. A month ago he took his degree in dentistry with honors.

This fall he and his wife may leave for Peru where they will be the guests of Anderson's parents. However, it is just possible that the long trip will be postponed until the coming year. In the meantime Mr. and Mrs. Anderson are making their home with the pretty young matron's parents, Mr. and Mrs. Edmund Taylor.

Lord and Mrs. Taylor are spending some delightful weeks in Mendocino county on a fishing trip. They are the house guests of Mr. and Mrs. T. L. Johnson in Northspur.

At the sunset hour last evening a little company of close relatives assembled in St. John's Presbyterian Church to witness the simple ceremony which made Miss Gladys Gill the bride of Otha H. Close. The only attendant was the young cousin of the bride, Miss June Lappen of Sausalito. Miss Close wore a dainty gown of white net over satin and carried a quaint round bouquet of garden flowers.

Immediately following the church ceremony the bridal company adjourned to Hotel Shattuck where an elaborate dinner was served. The new tea room was reserved for the charming celebration which preceded the departure of Mr. and Mrs. Close on their honeymoon.

Close and his wife are both graduates of Stanford. He is the son of Mr. and Mrs. J. E. Close of Berkeley. A pretty home is prepared in Fair Oaks where he is principal of the San Juan High School. Mrs. Close is the daughter of Mr. and Mrs. Charles A. Gill. She is a member of the Gamma Phi Beta sorority.

Mrs. Joseph Russell Knowland and her mother, Mrs. West, are spending some delightful days in the Tahoe region where they have joined the smart colony over the Fourth of July. Mr. and Mrs. Edgar Lion, formerly Miss Eleanor Knowland, spent the late June in this vicinity, the charming trip being planned as their honeymoon.

The latest betrothal to interest society in Oakland is that of Miss Marion Hook and Edwin Lowell Garthwaite. The marriage, which will probably take place later in the year, will unite two of the oldest families in the county. Miss Hook, who is a graduate of the University of California, where she also took her degree, and where he is associated with the faculty of the college of agriculture, is the daughter of Mr. and Mrs. W. P. Hook. She was prominent on the campus in the Kappa Kappa Gamma sorority, the English Club and the Epsilon Sigma Eta. Garthwaite, who is the son of Mr. and Mrs. Edwin Garthwaite, is a Chi Psi man and has membership in the Winged Helmet and Golden Bear societies. He is a nephew of Mrs. John A. Beckwith, who retired as president of Ebell this year, and a cousin of Lowell Redfield, the well known singer.

Mr. and Mrs. Samuel Dinkelspiel offered the smart set a genuine surprise this week when they made an announcement of the betrothal of their daughter, Miss Sophie Dinkelspiel, and James W. Schwabacher. Miss Dinkelspiel is a favorite with the younger set on this side of the bay, where she is a frequent guest. Her debut was made last year at the St. Francis. Schwabacher is the son of the late Ludwig Schwabacher, founder of the paper manufacturing industry on the coast, and the nephew of Mortimer Fleishacker and Herbert Fleishacker. The engagement follows a pretty romance begun in the Yosemite early in the season, and continued at Del Monte. The wedding will be planned for the fall.

## CORPS IS READY

WASHINGTON, July 6.—A sanitary corps composed of about a thousand men trained in first aid work will be formally turned over to the American Red Cross at open-air exercises here today. President Wilson was expected to accept the unit on behalf of the Red Cross.

In addition to the President, Secretaries Baker and Daniels, Henry D. Davison, chairman of the Red Cross War Council, and Eliot Washburn, acting chairman of the central committee, and others are expected to attend.

## MRS. WILSON'S GIFTS TO GO TO THE RED CROSS

WASHINGTON, July 6.—Four dozen pairs of pajamas and an equal number of sheets and pillowcases, made by Mrs. Woodrow Wilson and Miss Helen Woodrow Bones and donated to the Red Cross, have been divided equally among Red Cross organizations of England, France, Italy and Canada. Mrs. Thomas R. Marshall has organized weekly Red Cross sewing meetings of senators' wives and Mrs. Franklin K. Lane has organized women of the Interior Department for similar work.

## RECORD PRICES

SPOKANE, Wash., July 6.—What is believed to be a record price for a car of Northwestern cherries, \$4300, was paid by Philadelphia firm for a car of blings and Royal Annes from Kennebec, L. J. Blot, manager of the Spokane Fruit Growers' Company, announced. Another car was sold to a New York firm for \$3500.

# Moss Glove House

Located at 1321 Washington St., Near Fourteenth

## Oakland Headquarters for Gloves

Best qualities and greatest style varieties. Novelties of many kinds.

**Meyers Kid Gloves \$1.50**

Handsome in appearance and of great durability and shapeliness. In white with self embroidery and white with black embroidery.

**Trefousse Kid Gloves \$2**

Made of French kidskin with Paris Point embroidery on back and two clasps at the wrist. In champagne, ivory, tan, brown and black.

**Renval Kid Gloves \$1.75**

Fine Pique Kid Gloves with single clasp at wrist and heavy contrasting embroidery on back. An exceptional glove in every sense.

**Kayser Silk Gloves 65c to \$1.50**

These matchless gloves for summer wear here in a wonderful style variety. All have double finger tips, insuring durability. Very lustrous and stylish.

### Women's Phoenix Silk Hosiery

The Silk Hosiery that wears and that can always be found in the color you want it. Pure silk thread and correctly fashioned. Any sock or shoe top can be matched in color. Reinforced at vital points, lustrous and inexpensive.

**Prices—80c and \$1.15 Pair**

*Know what you are talking about when you discuss the war*

## READ AUTHENTIC BOOKS

Inform yourself on all the phases of the war by reading books written by people with an inside knowledge. It is impossible to form correct opinions on the information to be secured in the newspapers. You must read books that contain the real facts. Our shelves are well stocked with them.

**THE WORLD WAR**, by Georg Brandes—**\$1.75**

A book of facts concerning the war, written by a neutral who possesses inside information—**\$1.75.**

**THE BATTLE OF VERDUN**, by Henry Dugard—**\$1.50**

A thrilling account of this memorable battle which turned the tide of war.

**THE MENACE OF JAPAN**—**\$2.00**

A book to enlist the attention of all who are interested in our foreign relations.

**WAR, PEACE AND THE FUTURE**, by Ellen Key—**\$1.50**

A consideration of nationalism and internationalism and of the relation of women to the war.

**OBSTACLES TO PEACE**, by S. S. McClure—**\$2.00**

Mr. McClure visited all the diplomats of Europe just before America's entrance into the war and his observations are of thrilling interest.

**ALSACE AND LORRAINE**, by David Starr Jordan—**\$1.00**

A study in conquest founded on personal observations.

**THE WAR AND HUMANITY**, by James M. Beck, L.L.D.—**\$1.50**

A discussion of the ethics of the world war and the attitude and duty of the United States. Introduction by Theodore Roosevelt.

**THE PSYCHOLOGY OF THE GREAT WAR**, by Gustav Le Bon

A wonderfully interesting narrative that throws a great light on many aspects of the war that are but little understood.

**Headquarters for Magazines**  
Circulating Fiction Library—10c Week

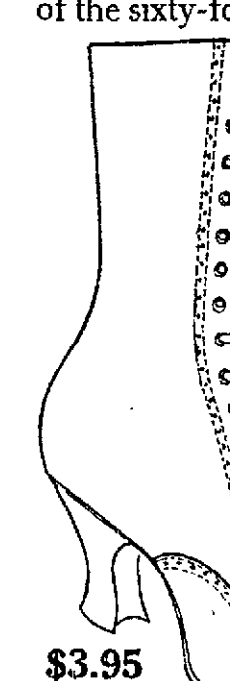

## SMITH BROTHERS

THIRTEENTH STREET bet. Broadway and Washington

The Shop That Saves You \$1.00 to \$3.00 a Pair on Shoes

## The Reason Our Prices are Lower

Our Shoes cost quite as much to make as any others. But the Shoes that other stores sell pass through the hands of jobber, wholesaler and other in-between-channels, each of whom must have his profit before they reach the wearer. The cost of production with but ONE legitimate profit added is all that you have to pay for Shoes in the Lewis Shops. OUR LOW PRICES are the result of many profits saved; of low-rent operating expenses; of the great buying power of the sixty-four-store organization of which our three California stores are a part.

**\$3.95**

White nubuck with ivory soles and heels.

### Here are some Lewis' values in Women's White Footwear

Ladies' White Sea Island Pumps with turn soles and covered heels—pair	<b>\$2.50</b>
Ladies' White Buck Button Boots Goodyear welts, Cuban heels—pair	<b>\$3.45</b>
Ladies' White Kid Pumps—with turn soles and covered heels—all sizes—pair	<b>\$3.95</b>
Ladies' White Buck, English Lace Oxfords—white soles, rubber heels—pair	<b>\$3.95</b>

## DANGEROUS NEGLECT.

The storm of protests which has been made  
within the last few days against the methods of  
handling the city garbage problem should receive  
prompt attention by the council. The volume and  
the wide distribution of these complaints indicate  
plainly that the present inefficiency of the garbage  
handlers is gross and inexcusable.

This is a matter which is directly connected with  
the public health. If the city fails in its responsi-  
bility for the efficient and proper collection and  
disposal of garbage it cannot escape the responsi-  
bility for disease epidemics and for the filthy and  
unsightly conditions already threatened.

City officials cannot afford to play politics in  
connection with this problem. Its solution should  
not be delayed. The garbage must be taken away  
and disposed of as it collects. It is presumed that  
the contract which the city council recently entered  
into for the removal of refuse provides that the con-  
cern which has been given this concession prevent  
accumulation in the back yards of homes and on  
the sidewalks of the city until the welfare of the  
residents is gravely menaced. Yet this is not being  
done and the city therefore is tolerating a viola-  
tion of its contract.

Two commissioners and the city health officer  
have stated that they realize that something must  
be done to relieve the situation at once. But they  
have action. We cannot afford to wait until some  
concessionaire learns his business and prepares to  
perform it properly.

## SETTLE THE ECONOMIC QUESTIONS.

America has been at war three months. These  
have been twelve weeks full of good intentions,  
earnest effort and a large measure of accomplish-  
ment. The work of mobilizing the financial re-  
sources of the nation and of organizing the army  
and navy on an efficient basis has gone forward  
more rapidly than many expected, than even the  
executive departments of the government expected.  
Small voices of disloyalty and the whispering of  
treason have been heard in the outskirts of patriotic  
endeavor. It is true, but they have not really  
counted so far as the military program of the gov-  
ernment is concerned.

But in the economic affairs of the nation the gov-  
ernment has run up against ugly snags. It has  
been unable to record the desired progress. Prin-  
cipal among the reasons for this is the little minds  
of the legislative department who always may be  
found wandering in the dark ways where selfish  
interests guide. Legislation has been sought to  
create a condition under which the people may be  
fed at a minimum cost, but Congress continues to  
bicker and sway this way and that. In this mo-  
ment of great emergency and great anxiety moral  
crusaders and reformers have elected to clog the  
wheels of national defense in order to advance the  
prospect of winning their points.

In the executive departments of the government  
much remains undone that might have now been  
well under way. While cabinet officers quarrel,  
and bureau chiefs hurl charges at each other, noth-  
ing significant has been accomplished toward keep-  
ing down the prices of coal, steel and other raw  
materials upon which the industrial and commer-  
cial prosperity of the country depends. The soar-  
ing and unjustified cost of raw materials, unless it  
is brought under effective control, is destined to  
bring hardships upon the people of the country. It  
is up to the government to devise and apply reme-  
dies for this tendency.

Not only is the delay on the part of the govern-  
ment to act promptly threatening the prosperity of  
the American people, but it is setting up a danger  
to the safety of the people of our European allies.  
Within a comparatively brief period the United  
States has become a vital factor in the economic  
life of the whole world. It must furnish a great  
portion of the supplies both for the military pur-  
poses of the entente powers and for the life  
of the civilian population of those countries. The  
government has so far been able to get all of its  
supplies at a reasonable cost, but its heavy drain  
upon resources is affecting non-governmental con-  
struction and manufacturing, giving an excuse  
for extortionate price boosting.

The cost of all kinds of fuel is a vital factor in  
industrial life; so is the cost of steel and some  
other raw materials. If the government is going to  
do anything to save the public from exploitation at

the hands of the fuel producers and distributors, of  
all others who deal in necessities, it should act  
quickly. This is a duty and an obligation which  
makes all other issues relatively insignificant.

## THE FARM LOAN BANK ROW.

The definite and frank division of the directorate  
of the Federal Farm Loan Bank at Berkeley into  
two bitterly antagonistic camps cannot be ex-  
plained on the ground of divergent views as to bank  
policy. It is far more serious than that. It has  
developed into a public disgrace of considerable  
magnitude and thereby has dealt a serious blow to  
public confidence in the administration of the  
Farm Loan Bank of this district. This means that  
the institution will be unable to render for the time  
being the maximum of public service which Con-  
gress presumably intended it should.

Mr. Burnell G. White, president of the Farm  
Loan Bank, has accused two of his fellow directors  
of being guided by motives of personal gain in the  
performance of their duty. They have tendered  
their resignations. It must in all fairness be ob-  
served that the reply of one of the gentlemen ac-  
cused by Mr. White, Prof. Elwood G. Mead of the  
State university, carries more conviction as a truth-  
ful denial than do the charges of misconduct. Thus  
there is raised, not only the question of the alleged  
unworthiness of two of the directors to continue in  
office, but the equally serious and opposing issue  
of veracity on the part of the head of the Farm  
Loan Bank.

This scandal in the government service may with  
good reason be ascribed to the mistaken policy  
which the government pursued in selecting the ad-  
ministrative officers of the bank for this district.  
It was not to be expected that one whose almost  
only claim to fitness for high position in an im-  
portant financial institution was that one of his  
law partners was a relative of a cabinet officer and  
the other connected by marriage with the Presi-  
dent's family, could guarantee the successful or-  
ganization of the Farm Loan Bank.

A thorough investigation of conditions at Ber-  
keley should be ordered by the federal farm loan  
board at Washington. Judging solely from the pre-  
pared statements which have been issued by differ-  
ent directors of the bank, unfitness for responsible  
position in administering this institution exists  
somewhere.

The government should locate it and quickly  
remedy a very lamentable situation.

Up to the present no charge has been made, al-  
though circumstantial provocations were strong,  
that in organizing the Farm Loan Banks the ad-  
ministration had been chiefly concerned in find-  
ing places for its deserving partisans. It would  
be most unfortunate if such a charge had to be  
made. The government has had the benefit of the  
public's confidence in inaugurating the farm loan  
system and it should be careful not to lose it if  
that system is to achieve the maximum of public  
usefulness.

Federal Judge Landis at Chicago has sentenced  
seventy-eight slackers from registration to a year's  
confinement in prison. Other federal judges  
throughout the country should exhibit similar  
alacrity in concluding slacker trials. The services  
of these shirkers are needed in the army as soon as  
they get through with their jail sentences.

## THE FUTURE OF VANCOUVER.

However the much-discussed question of the admini-  
stration of the port of Vancouver is finally settled, there  
can be no doubt that the matter is an important and, to  
a certain extent, an urgent one. There is a very wide-  
spread and well-founded conviction abroad that the com-  
ing of peace will witness very great developments in trade  
in the Far East, and nowhere will such developments be  
felt more certainly than in the Far West; whilst nowhere  
in the Far West are they likely to be felt more certainly  
than in Vancouver. Vancouver is already a great port,  
but, with its eighty miles of waterfront and forty miles  
of anchorage, it is clearly destined to be a much greater  
one.

For some time past the wisdom of the policy adopted  
by the harbor commissioners has been seriously ques-  
tioned, especially in regard to the tax of 3 cents per net  
register ton on the shipping that enters the port. It is  
contended that this tax, which is not levied in Montreal,  
for instance, has a tendency to keep shipping away from  
Vancouver, and that if the port were placed under na-  
tional control, and the tonnage tax abolished, the advan-  
tage to the country, generally, would be very great.

It was for this purpose, of course, that the delegation  
of the Vancouver Board of Trade visited Ottawa, recently.  
The delegation has not yet made its report, but it is  
almost common knowledge that it will be very much in  
favor of the nationalization of the port of Vancouver on  
the same lines as Montreal. Montreal eliminates all har-  
bor dues, and is practically free to shipping, charges  
against cargo being very small, and limited to certain  
classes of outboard merchandise.

It is a time for far-reaching and courageous policies,  
and, as the tremendous part played by transport in the  
great business of supplying the world with food is more  
thoroughly realized, it will be seen that the highest effi-  
ciency in the land and water transport services, in all  
their many ramifications, is one of the first demands of  
any commonwealth. A great port like that of Vancouver  
is a national possession, and it should be developed from  
this standpoint.—Christian Science Monitor.

## WASTE IN THE FORESTS.

A thorough inquiry in Europe concerning the lumber  
industry there is to be made by the commission of five  
American experts chosen by examination and appointed by  
the Bureau of Foreign and Domestic Commerce. The  
expenses of four of the investigators will be paid by the  
National Association of Lumber Manufacturers, and the  
expenses of the fifth, made under the supervision of  
the bureau, the Federal Trade Commission and the Forest  
Service. European lumber markets from Norway to the  
Mediterranean will be studied by the commission, to-  
gether with the methods and requirements of builders.  
The purpose of this investigation is to increase our ex-  
ports of lumber. Dr. Pratt, chief of the bureau, expects  
that before the end of the war enough information will  
have been obtained "to furnish a broad highway for those  
American manufacturers who are ready to move upon  
the European markets."

This is a commendable project. But it should not divert  
the attention of the Washington authorities from the enor-  
mous waste in our lumber industry, or delay action in  
response to the appeal of the National Association of  
Lumber Manufacturers for permission to prevent this  
waste by a combination agreement. This appeal was ad-  
dressed some time ago to the Federal Trade Commission,  
which assists in the supervision of the inquiry to be made  
in Europe. The greater foreign demand which is desired  
may cause greater waste in our forests, unless the lum-  
bermen are allowed to put into effect their plan to re-  
form. They fear that the proposed agreement would be  
regarded as a violation of the anti-trust law, because it  
would forbid the selling of lumber at prices below the  
cost of production.—New York Sun.

# NOTES and COMMENT

Our General Scott stood on a hill  
and watched the Russians vanquish  
the Austrians, and reports that they  
did it in a workmanlike manner. Re-  
lieved of treachery and half-hearted  
leadership the Russians seem to com-  
port himself as a real soldier.

It costs the State of California nearly  
three millions a month to maintain  
its government, which is just about  
double the cost of five years ago. But  
we must always remember that many  
"blessings" of government have been  
forced on us at our expense, for  
which we should dutifully work our-  
selves into an attitude of thankfulness.

The Santa Ana Blade takes account  
of us: "The Alameda county bakers  
are getting their flour much cheaper  
than they did two months ago and  
they claim to be saving 10,000 loaves  
a day by refusing to take back unsold  
bread from the grocers, but the Oak-  
land TRIBUNE notes that the price  
of bread to the consumer remains  
the same. Old Mr. Consumer always  
has been and always will be the  
goat."

The day has come when the Stars  
and Stripes are given equal status  
with the British flag on the staff  
above the Houses of Parliament. The  
millennium hasn't come yet, but it  
ought to be possible.

Representative Keating of Colorado  
delivered a Fourth-of-July speech in  
New York in which he reminded his  
hearers that California is a real piv-  
otal state and not a "seismic distur-  
bance." For one who butts in he is  
talking about us rather outspokenly.

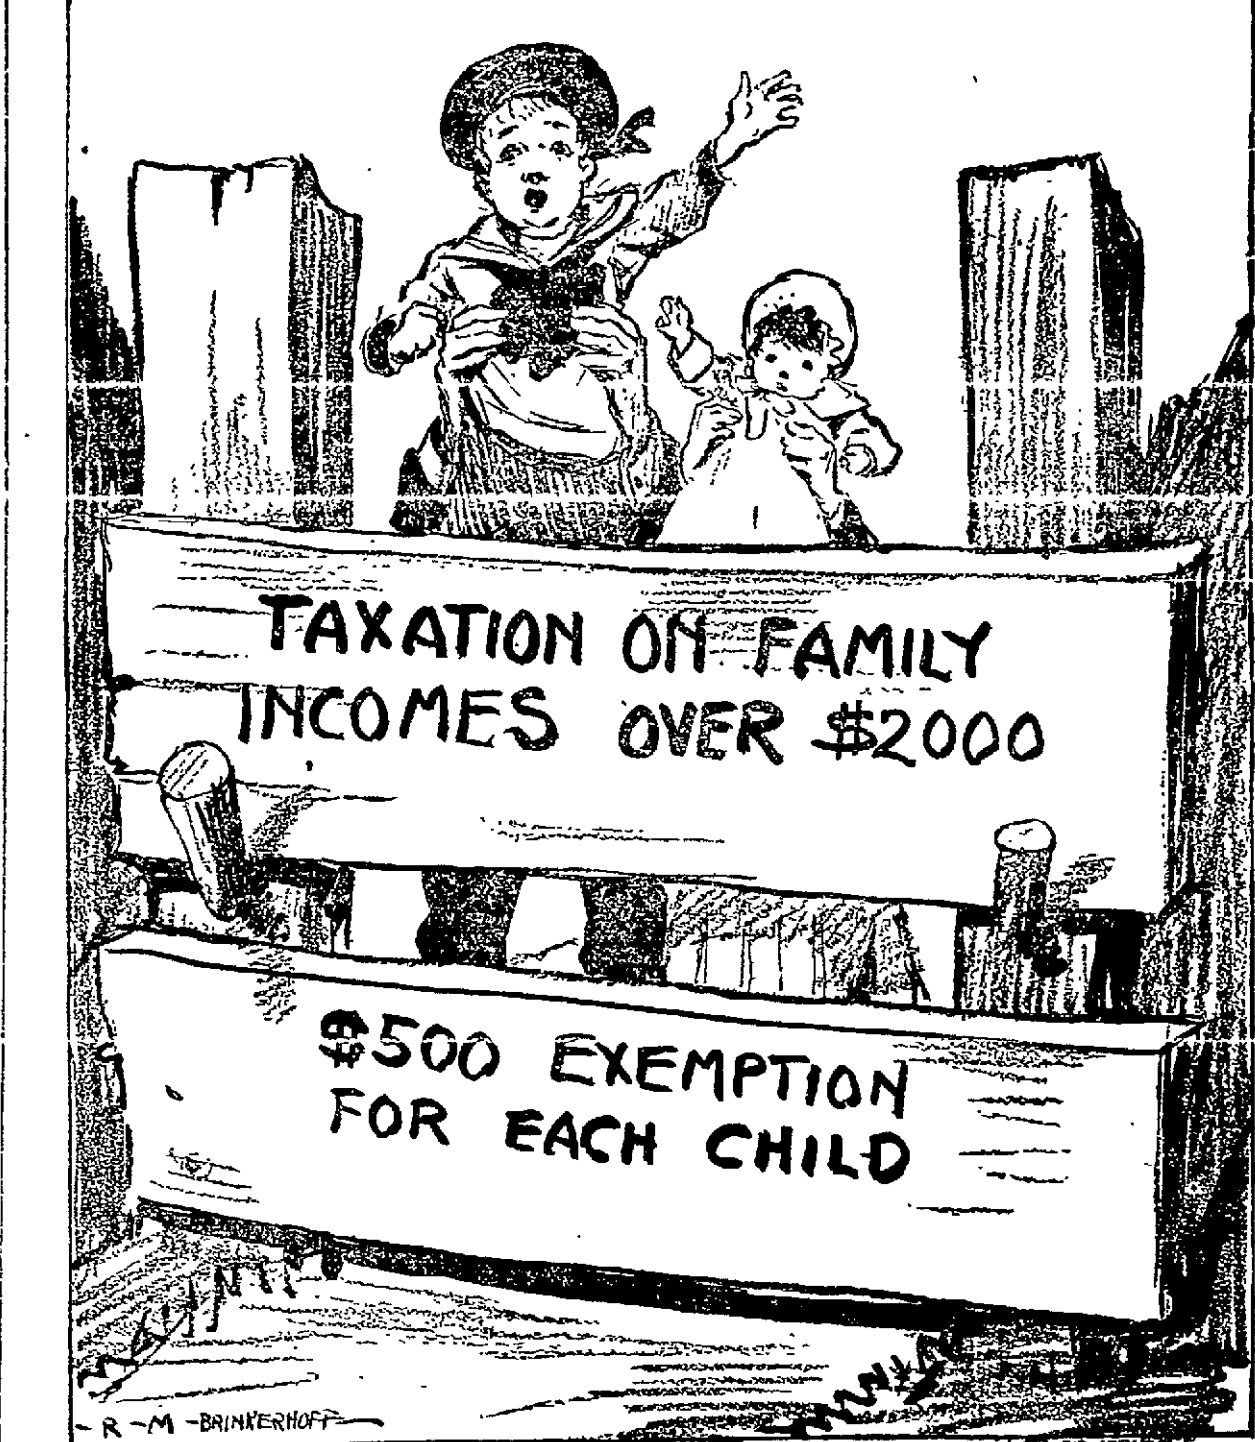

The Gold Hill News hunches its  
readers: "There's a certain ad in  
the paper this week which we think  
will save you several dollars if you  
will read and take advantage of what  
it offers. But it's up to you to hunt  
it up and dig it out. We've handed  
you the hint."

Piscatorial amenities, as exempli-  
fied by the Avalon Islander: "The  
other day we heard that the 'Fish  
and Game' boss was going to get peev-  
ed if the Islander didn't let up." Peev-  
ed! We have been peev-  
ed a long time,  
boss; and we'll stay peev-  
ed, too, until  
we can sit on the Avalon beach and  
write true stories of the State patrol  
boat chasing poachers out of District  
20."

At Amsterdam they riot for pota-  
toes and in Düsseldorf they riot for  
meat. At Stettin they riot for any  
kind of food. In the face of this, the  
frequent statement that there is no  
shortage of grub lacks force.

This would be from a San Diego  
paper, of course, and as a matter of  
fact it appeared in the Union:

"A woman created a sensation in  
Spring street with her hair done up  
in a net. So much interest centered  
in the fair one that fully half a dozen  
Los Angeles citizens temporarily ne-  
glected to weep over the fact that  
San Diego and Palo Alto have landed  
the army cantonments."

## SPIRIT OF THE STATE PRESS

The Department of Agriculture  
sent an expert to China and Central  
Asia for the purpose of gathering  
fruits that would resist a zero tem-  
perature. He found a certain apricot  
which endures the cold of fifteen de-  
grees below zero, and a Siberian  
apricot can grow where mercury  
freezes and makes alcohol thermome-  
ters necessary. Both can be improved  
with scientific cultivation.—Avalon  
Islander

Campers should be particularly  
careful this year to guard against  
forest fires. It is needed for cattle and  
sheep more than ever before. Thus,  
not only to avert disastrous waste,  
but also as a war time precaution,  
those who build fires should see that  
they are thoroughly quenched before  
leaving. Just a little extra caution

## TODAY 20 YEARS AGO

Superintendent of Public Instruc-  
tion S. T. Black made the semi-annual  
apportionment of state school moneys  
which showed that Alameda county  
had 23,826 school children, the ap-  
portionment being \$59,577.92.

The Oakland exposition was opened,  
the display, including a variety of  
booths of different business concerns.  
Street Superintendent Chick re-  
turned from a visit to the Yosemite.

Frank Todd, a graduate of the Uni-  
versity of California, and later con-  
nected with the Evening Journal of  
Chicago, returned for a visit to this  
city, where he formerly resided.  
Miss Mary E. Gallagher and Miss  
Emma V. Gallagher returned from a  
month's visit to Santa Clara.  
may prevent a real catastrophe.—  
Bakersfield Californian.

## THE JESTER

Ready To Assist.

Mrs. Jones—"Fred, dear, mamma  
says she has made up her mind to be  
cremated."  
Jones (absent-mindedly)—"All right.  
Tell her to put on her things and I'll  
take her right along."—London Opinion.

Sometimes It's This.

Hawkins—"Old De Grouche is al-  
ways grumbling about his car."  
Robbins—"What's out of order?"

## DRUGGIST IS HELD; WOMAN IS ACCUSER

SAN FRANCISCO, July 6.—Hugo Lagan, a druggist and son of Dr. John Lagan, of 158 Haight street, was arrested this morning on allegations of attempted extortion and carrying concealed weapons. He is declared to have endeavored to obtain money from Mrs. Wilhelmina Dilda, of 1002 McAllister street, by threatening to injure her son, Dr. A. J. Mager, a surgeon, with offices in the Hewes building.

While Detective Fred Strel lay concealed in the Dilda home last night, Lagan appeared to keep an appointment at which Mrs. Dilda says she had agreed to pay him \$500 in cash and had also consented to drop the prosecution of J. Kullerman, whom she accuses of having obtained \$3000 from her by false pretenses. When Lagan was taken into custody by Detective Strel, he is alleged to have had in his possession a loaded revolver and a star bearing the words, "State Special Agent."

According to Mrs. Dilda and her husband, Gabriel, retired capitalist, Lagan first visited them and urged them to drop the prosecution of Kullerman, declaring that if they did not do so he would take steps to bring about the forfeiture of the license to practice of Dr. Mager, who is Mrs. Dilda's son by a former marriage. In addition, they say, he demanded \$2000, but finally came down to \$500. Last night, by pre-arrangement with the police, Strel was in hiding. Lagan called, but became suspicious and declined to talk to the couple save on the sidewalk in front of the Dilda home. Strel was concealed behind some portieres. He heard sufficient of the conversation, he says, to justify him in taking Lagan into custody.

## THREE MEN HURT

SAN FRANCISCO, July 6.—Three unidentified men, the victims of three distinct accidents, are at the Central Emergency Hospital this morning and one of them cannot recover. A McAllister street car struck and knocked down an aged pedestrian shortly after 10 o'clock. He was taken to the Central Emergency Hospital, where it was found that his skull had been fractured. It is believed that he cannot recover.

The second man was found unconscious at the foot of a stairway at Twenty-fifth and Mission streets. He is about 35 years old.

**SUSPECT HELD.** BOSTON, July 6.—Marine guards at the Charlestown navy yard late today seized as a spy suspect a man who gave his name as John B. Fitzpatrick of Everett, Mass. He was turned over to the federal authorities.

## Californian Reveals Battle Sensations Thrilling Life on French Front Told

More pictures of the intimate side of war life in France have been received from young Alan H. Nichols, son of Walter H. Nichols, superintendent of schools of Palo Alto, who is serving in the trouble zone with the Stanford Ambulance Corps. The bits of service life are included in a letter just received at his home in which he tells of facts and scenes not usually covered by the wire reports from France. Telling the geography of the country by the shape of its bread, letting the wounded suffer because gasoline is \$1 a gallon, a bombardment from a distance with the shells "whistling like the rattling spokes of a buggy" and playing chess in gas masks—these are some of the pictures. The letter follows:

S S U. 14 CANTONMENT, AMBULANCE AMERICAINE. I told you last time about my first night on duty. I suppose you were expecting me to fill you with wild tales of midnight rides at 80 miles an hour through madly branching groups of horses, of shouting men, of rumbling batteries, blinding flashes and deafening noises and of shrapnel taking off my tail lamp, and so on, but I was brought up to be honest and I can't quite do it.

We ambulanciers may be young Lafayettes, but if Lafayettes had loafed around in the United States as much as we do here I'm afraid that we would still be colonies of Great Britain. However, they say it is like insurance—we must be maintained while we are not needed because some day they will need us badly all at once. We are attached to an attacking division that is not attacking.

### LOAFING AROUND.

Two men have been taken off the night shift, so only two of us at a time are on the night shift, twelve hours. There is nothing to do on my car as it is new and runs perfectly. Snow, rain and hail alternately, so we stuck around inside and loaf. With decent weather I sometimes get out and hike around.

By order of the French government the time of clocks and watches are advanced an hour. We get up an hour earlier and go to bed an hour earlier and eat supper without lights. We feel just the same, but a tremendous amount of light and fuel is saved. Simple, isn't it?

The following morning. The same place. As a sequel to the wall of yesterday I have just passed through the most exciting day and most hair-raising night yet experienced. But first I must go back and tell you some other things.

One day I volunteered and took a load back to the hospital in the rear. They gave me a cup of hot coffee. Snow began to fall as I started on my return trip. I picked up a French officer. This incident on paper safely, much as I would like to. The censor!

### WEATHER FIERCE.

This weather is fierce. It is something like French bread—not that it is fierce, but that it is changeable. I believe that from our trip out here, just as a woodsman can tell his altitude from

the trees, so a Frenchman can tell his locality by the shape of the bread loaves. In Paris it is sold by the yard and no kitchen is complete without an umbrella stand of it.

In another region it is curled into a mighty crescent like a big slug dug from wet earth. In this form it is threaded on poles overhead and unlooked for use. In still another region, it is a complete wheel like a life preserver. A bakery looks like a tire agency. The army bread goes still further and assumes the shape of a solid wheel of an armored car. In this form it can be stacked like coins and a single pile makes an excellent seat. The loaves are fine for cushions and pillows at night. They can be rolled like wheels, thus saving labor of carrying. All French bread has one quality in common—it is mighty good.

### SOMEWHERE IN FRANCE.

The other day I was on duty with Fashok. We stayed outside the shack most of the time as we were afraid of insects. I took two badly hurt couches into the hospital. We are now only five kilometers back. They were hurt by the unfortunate cave-in of a heavily timbered bomb-proof. The color in their faces was awful. They were tanned and unshaven and muddy, and the palest showed through, making a ghastly dumb stare as if they had been stunned by all they had endured in the trenches. The sergeant of the post said in mixed German and French: "Schneidl Douceur!"

### SLOW BUT SURE.

Well, it is hard to go fast and easy at the same time. Every little bump hurts my feelings, too, and one of the wounded men kept knocking me over. I had the cart at the hospital no one was in sight. I ran downstairs into the cellar and yelled: "Deux blesses—urgent urgent." A sleepy brancardier appeared and nodded and slowly came up. I had the back door of the ambulance open. He looked in, then looked around and calmly descended to get a helper. The messes groaned and I fumed. Finally they came back and packed the wounded in. I went down and saw that the doctor had begun work on them before I left. We are so new that these things make us rage. Out at that post they make many of them walk—malades—while ambulances and drivers sit around idle.

I believe they would let the poor fellows suffer rather than take the trouble to make us run for a run. Of course I realize that gasoline at a dollar a gallon is to be conserved, but it seems rough just the same.

### ANOTHER DAY.

This afternoon we climbed a hill and could see a bombardment in progress. The shells were falling two miles away. The whistle of the shell at that distance became a sort of rattle like the wheels of a buggy on a gravel road far away. The boom at that distance sounded like a heavy door in a big draft away off in the house from you, not a

"boom," but a "b-loom!" and a rumbling echo.

There is a certain railroad which the Boches feel for with big ones, usually about the same time each day. It happened that I was on a run at that particular time of the day and heard the different sounds of the shells which fell near by.

Up close there is a sudden hoarse swishing shriek, something like the sound of a bicycle siren on the downward note. It has a skyrocket sound, too. Then comes the breathless silent instant, then the sharp, shattering bang, not a double "b-loom!"

It gives one a queer feeling, but really doesn't scare me much any more—because I can't see where it lands half the time anyway. It is exciting, not terrifying, because of this. There is no fighting in sight—no enemy—just these startling noises.

For safety's sake I came back around another road. It was just after dark and I came upon a long wagon train that had stopped to rest in the middle of the road, as they usually do. There was a narrow-gauge track on the side of the road, so I could not crowd the train and hit several wagons. The horses were scared and I had a device of a time. Finally I had to come to a stop. This was a real war scene. Here I was, blocked completely, in the dark, and off a little distance was a nice piece of ruined masonry, through the holes of which I could see the flickering of the fire and could hear the rumbling guns. After a long wait everything moved and I got passed it all.

### GAME FAILS TO HALT.

Somewhere else. At the post one of the brancardiers gave me a clip of five German cartridges. The cartridge is much longer than the French, but the bullet is much shorter. Back of our quarters that evening a signal was given for gas masks. Bill Losh and I were playing chess, so we put on our masks and continued. The stench of the mask was frightful. Bill won.

The following day was a hum-dinger. In the early morning the Boche began a bombardment and it lasted all day. The shells went over our heads and the whistling sounds were long-drawn-out. One shell hit on the top of our hill and shook everything. I figured that a mere fraction in the range would make them put us with their big shells—so you do a good deal of figuring here.

During the morning a Boche plane got one of our saunages. Before a half-dozen shots were fired the balloon was a puff of smoke on the wind. The observer floated to safety with his parachute.

### FRENCH CURTAIN FIRE.

In the evening the French started a real tir-de-barrage, or curtain of fire. We witnessed it from the "sending end." The sky was lightened by a continuous

## HOSPITAL OF PEOPLE TO BE OBJECT

"Make Alameda County's Hospital a People's Hospital and Not a Pauper's Hospital."

Such is the mark at which is aimed the purpose guiding the preliminary plans of those who probably will direct the institution in the future. The survey of the many conditions surrounding the conduct of the present hospital, and the suggestions that will be made for the conduct of the new institution to be erected on the recently purchased California college site as the result of this survey, which is being made by the State Board of Charities and Corrections, will embrace a scope far wider than that of mere irregularities in purchasing food supplies and absence of discipline affecting minor employees. This investigation is proceeding to the very foundation of all that is best in hospital management and has in view the establishment of a system modern in every way.

The keynote of the investigation has been struck by Dr. R. T. Legge, head of the University of California Hospital, who has been freely consulted by both Alameda Supervisors and the state investigators, who it was said:

"Make Alameda county hospital a People's Hospital and Not a Pauper's Hospital."

In a letter to B. H. Pendleton of the State Board of Charities and Corrections, Dr. Legge outlines the theories that the University authorities hold in regard to the new Alameda county hospital system and what it is hoped that the plans being worked out by the supervisors and the state authorities will bring about and what the proposed commission will put into practice.

### MAKES SUGGESTIONS.

This letter follows, in part: "May I suggest that the great problems of preventive medicine should be especially taken into account in the planning of the future of the county hospital and the other health agencies of Alameda."

"Not more than one out of ten in the principal industries of this country earn more than a thousand dollars a year. The average income of the men who are heads of families is less than eight hundred dollars a year, and yet eight hundred dollars is regarded as the minimum income on which a family of husband, wife and three children may be adequately fed. With such an economic situation it is plainly evident that the vast majority of all the members of the community are utterly unable to provide proper medical care for themselves or for their families."

### ISSUE IMPORTANT.

"It is, however, of the utmost importance to the community that all of its members should be kept in health. The only solution to this problem is that the community should itself see to it that medical advice whenever needed, and hospital care in time of illness, shall be provided for every member of the community. Unquestionably the people of California will within the next few years

(Continued on Page 16, Column 1).

## EIGHT ARE HELD IN FIRST DAY'S 'SLACKER DRIVE'

Eight men are being held by the police on suspicion of being slackers. They will be held for twenty-four hours, during which time they may endeavor to establish their status as non-eligibles after which they will be turned over to the federal authorities. Raids were made in different parts of the city last night when cafes, billiard parlors and like resorts were inspected by the police and all habitués closely questioned. The drive is being continued today, the police still checking over the lists in their possession.

Miss Lillian Clark, food conservation demonstration, Y. W. C. A., 10 a. m.

## LOCAL PLANT ENTERS INTO STEEL FIELD

The first unit of the Judson Iron Company's contemplated \$1,000,000 plant for the manufacture of steel for industrial and commercial purposes, was given an official try-out this morning when in the presence of company officials twenty tons of molten steel was converted into ingots from the new open-hearth furnace which has just been installed. The test marks the entry of Oakland into the coast steel market on a large scale.

The first unit of the big plant has a capacity of eighty tons of steel every twenty-four hours. In equipment it is the most modern of its kind on the coast and in output ranks next to the Pacific Coast Steel Company's plant in South San Francisco, which is said to have a capacity of 200 tons a day. The Judson plans comprehend the installation of additional units that will result in a capacity greater than the trans-hay plant. The final expenditure for these furnace units is placed at nearly a million dollars. Work on the additional units is to be started immediately. The present plant marked a record in industrial construction work, having been erected as the first portion of the new extensions determined upon some time ago, within a period of six months.

## TAFT & PENNOYER COMPANY

### A Record Low Price for Novelty Hosiery

The woman who likes stockings that are a bit "different" will find much to commend this sale to her, for in addition to the attractions of the stockings themselves is the record low price—

## 60c a Pair

We have secured a very fine range of colors in silk boote and silk fibre.

# POLICE HEAD IS ON TRIAL IN RICHMOND

RICHMOND, July 6.—Despite the pleas of the councilmen that the attorneys hurry their examination of witnesses, the hearing of the charges of drunkenness and incompetency brought against Chief of Police Walker by Virgil Phillips and others was not completed before the city council last evening.

Charges of Walker being intoxicated at the police station and obstructing justice were the outcome of a hearing of witnesses and it is likely that the case will continue for several additional evenings during the next month.

Attorney C. S. Hannum, represented Phillips, and those who would obstruct Walker. Wrangles over alleged shortcomings of Walker in handling police business were not very clear and much disputed.

Walker's attorneys, T. H. Delap and Lee D. Winderm, are concentrating their defense upon their theory that the charges are the outcome of spite as many of the witnesses against Walker are men whom he has ousted from the department during the past three years.

# BOVINE LACKS RHYTHM; COPY SNAKE SPECIES

BERKELEY, July 6.—Would you be rhythmic? Copy the snake, but by all means, not the cow.

This is the advice given by his class in art at the summer session of the University of California by Professor Eugen Neuhaus, famed art critic and a member of the art board of the exposition. Even the horse is superior to the cow, he said, while Pauline Frederick, to his mind, is the most rhythmic of all human beings he knows.

"The cow," said Professor Neuhaus, "has no rhythm whatever. Though I have never been able to discover that they possess any really artistic qualities. On the other hand, the horse is full of rhythm and makes a more pleasing artistic appeal. Behold the horse of Rosa Bonheur, for instance."

"The snake, with its artistic wile, is the most rhythmic of all animals."

"Among persons, I have never seen one so full of rhythm as Pauline Frederick, and she has gained this quality by her devotion to physical culture. It is probably this quality more than any other which has made her the foremost model actresses."

"Rhythm can be gained by almost anyone through the systematic pursuit of physical culture."

Following the installation ceremonies a banquet was served under the direction of Mrs. Amy Thrall and Frank Rhoads.

The new officers of the club are: E. F. Imman, N. G.; J. A. Schafer, Vice; N. G.; J. W. Sheel, S. E.; B. A. Hader, S. W.; L. B. Hutchins, Treasurer; F. J. Manning, Secretary; C. E. # BOARD DECIDES TO BUILD 2 SCHOOLS

HAYWARD, July 6.—In direct opposition to the policy of the former grammar school board which favored the centralization plan in providing extra school accommodation, the new board has decided to build two new schools, and has called for a bond election to be held July 21 to raise \$20,000 for the schools and their sites in the Ora Loma district and the Meek Orchard tract adjoining the Mt. Eden road.

The new board, in which Trustee Fred J. Russell and Hugh Aldrich are the majority members, believes that the building of schools in the outlying district is better than the plan championed by former Principal E. N. Mabray of building an annex to the central grammar school and furnishing transportation for the children who lived at a distance.

Officers of the board are: Trustee Fred J. Russell, president; Trustee Hugh Aldrich, vice president; Trustee E. N. Mabray, secretary; Trustee E. N. Mabray, treasurer; Trustee E. N. Mabray, auditor.

The board has also decided to build two new schools, and has called for a bond election to be held July 21 to raise \$20,000 for the schools and their sites in the Ora Loma district and the Meek Orchard tract adjoining the Mt. Eden road.

# GERMAN PRINCE THIEF, HE CHARGES

BERKELEY, July 6.—That the German prince of Belgium was a definitely pre-arranged plan with governmental authorization and assistance and that the prince was a thief, he charged today, Professor Frederick of the University of California, summer session.

Professor Hall is adjunct professor of Spanish at the University of Texas. During the American relief regime in Belgium he served as the German border under Herbert C. Hoover. His particular task was to "see that home of the relief supplies for the border into Germany without assurance of which the English government would not permit the sending of the supplies into Belgium."

There is no doubt that the reign of horror which the Germans inaugurated to tame the Belgian people was a definitely pre-arranged plan with governmental authorization and assistance and that the prince was a thief, he charged today, Professor Frederick of the University of California, summer session.

# UNIFORM WEIGHT BREAD PROVIDED

SAN LEANDRO, July 6.—In accordance with the request of the county assessor of weights and measures that steps be taken throughout the county to have all bread sold of a uniform weight, the Town Board passed for the first and second times last night an ordinance requiring all bread sold in this city to be of uniform weight.

The trustees were informed that the State Railroad Commission will hear the petition of the San Leandro Chamber of Commerce for a lower gas rate at the commission's office, 833 Market street, San Francisco, at 10 o'clock on the morning of July 20. The Chamber of Commerce first petitioned the commission for a lower gas rate of this city two years ago. The rate is \$1.25 a thousand feet at present.

The Johnson-Shay Company, contractors, were awarded the contract for the paving of portions of Washington avenue and Heppner street, D. U. Toffelmeyer was given the contract for the supplying of rock and screenings, A. H. Kopperud for oil and M. Enos was awarded the street sprinkling contract.

Thanks Vallejo. Vallejo, July 6.—That the recent "usade" of Rev. Paul Smith and former State Senator Edward E. Grant did not injure Vallejo in the eyes of the Navy Department was proven this morning when Mayor James Roney submitted to the city council a letter which he had received from Secretary of the Navy Josephus Daniels, in which the head of the Navy Department expressed his satisfaction at the action of the mayor in swearing to complaints against the proprietors of three local rooming houses where it was alleged prostitution was practiced.

Gold is received. NEW YORK, July 6.—Gold amounting to \$5,500,000 and carrying the total of the present movement up to \$126,031,000 was received here today by J. P. Morgan & Co. from Canada and sold to the Federal Reserve Bank. The total for 1917 is now \$521,031,000.

No fish permit. VALLEJO, July 6.—The army of anglers which had been hoping that the city of Vallejo would start issuing permits for fishing in the municipal lakes in Wild Horse Valley, will be disappointed to know that no permits will be issued as long as the United States is at war with any foreign country. At the meeting of the city council this morning Mayor James Roney submitted to that body a communication that he had received from Captain Harry George, U. S. N., commandant of Mare Island navy yard, in which the naval official strongly advised that all fishing permits be revoked.

Name delegates. VALLEJO, July 6.—At a largely attended meeting of Samson, Tribune No. 2, Knappton, Oreg., held last evening eleven past sachems of the tribe were selected to attend the great council session to be held at Napa, commencing on August 14, those who will represent the local tribe being Fred E. Dickey, Fred E. Dickey, John Hays, Albert A. Foss, William Hennings, Harry M. Rowe, John R. Thornton, Thomas Maloney, James H. Smith, Richard J. Passalacqua and John V. Moran.

Ball game postponed. MARTINEZ, July 6.—There will be no baseball game Saturday between the Court House team and the city officials of Danville, in which the officials of Danville are being visited at 1 o'clock every afternoon by Eugen Neuhaus, assistant professor of decorative drawing at the University of California, who will hereafter be given in 101 California hall instead of in the auditorium of Wheeler hall as in the past. These illustrations are of the history of art open to summer session students on presentation of their registration cards and are open to the public on payment of the summer session fee for individual lectures of 25 cents.

Plan program. BERKELEY, July 6.—The half hour of music at the Greek theater Sunday afternoon for the first time in the history of the Reek of Stockton, a talented violinist. He will be accompanied by George Frederick Kell. The program announced is as follows:

1. Suite in D minor, Veracini (1655-1700); 2. Prelude and allegro, Pugnani (1726-1798); 3. Serenade, Kreutzer; 4. Spanish Serenade, Charnick-Kreutzer; Gavotte in E major—Bach-Kreutzer; 5. Slavonic Dance in G minor—Dvorak-Kreutzer; 6. Liebeslied—Kreutzer; 7. La Chasse (Caprice)—Cartier-Kreutzer; 8. Rondino on a Theme by Beethoven—Kreutzer; 9. Tartinian Variations—Kreutzer.

Buy ball players. ST. JOSEPH, Mo., June 6.—Ed Howell, pitcher of the Henry Moore club, of the St. Joseph Western League club, has been sold to the Vernon club of the Pacific Coast League and are now on their way to the California city. The price for the two players is said to be \$5,000.

"Calla too much." ALAMEDA, July 6.—She calls me this, she calls me that, she calls me those, testified Mrs. Julia Boniste at 1208 Post street in detailing the particulars of a neighborhood quarrel in the 1200 block on Post street in court this morning. She was testifying against Mrs. Jane Ursin, who was arrested on a charge of disturbing the peace. Judge Elmer E. Johnson continued the case and advised the two quarrelers to make up and keep the peace.

Daughter complains. ALAMEDA, July 6.—C. A. Bornson of 3254 Briggs avenue, who attempted to end his life on the Fourth through inhaling gas, was taken into custody last night on a charge of disturbing the peace. His daughter, Miss Sadie Bornson, Bornson is 65 years old and is suffering from cancer of the throat. She is in a hospital to be placed in place him under adequate restraint and avoid further attempts at self destruction.

# SOFT PEDAL IS PUT ON MULES IN FRENCH ARMY

WITH THE FRENCH ARMY APPLIED, June 25.—(By Mail).—Uncle Sam rendered France a great service in letting her have his mules—at a very good price—but France has returned the service a thousand times by solving the secret of a brayless mule.

When the American pack mule arrived in France to "do his bit" he of course brought his bray with him. The mule was welcome but the bray—well, any unusual sound on a battlefield is undesirable. It might tip off the Boche to a surprise attack.

In an effort to put an end to the nightly "love song" of the pack mule the French military officers decided to separate the sexes, and all male mules were retained for service in one sector while all of the females were taken off for service in a more distant region.

This produced very marked results. Nevertheless there still remained certain mules who either from force of habit or from conviction that both their love and their voice were strong that their lady loves would hear them no matter how far away they might be, persisted in making the welkin ring with a gigantic bray just at the place and time when it would give the "Boches" the right cue for sending in a hall of shells, grenades and rifle fire.

The habits and temperament of the mule were then subjected to further and more profound study by the French, and this time with more happy results. It was found that a very slight operation performed on the nostrils of a mule would render him as silent as a wrecked phonograph, and since then the American mules in the Vosges have met all requirements that could possibly be exacted from them.

# HOSPITAL OF PEOPLE TO BE OBJECT

(Continued From Page 13)

adopt such a system of health insurance as is to be voted on at the next general election, and as now prevails in more than twenty of the leading countries of the world, including such countries as England, the Scandinavian countries, Germany, Austria, etc.

U. C. MODEL.

"It may interest you to know how much health insurance has actually worked out in a test under practical conditions undertaken here at the University of California. For the past ten years students have been entitled to all the medical advice and hospital care they may need in return for a fee of \$5 for each university year. The infirmity system is entirely self-supporting. During the year ending in May, 1917, seventy-two per cent of the students received medical advice at the university infirmary. Of the 6300 students, 5000 received medical advice, on an average nine times each. There was not a single death at the infirmary during the year among all the 5000 students who received treatment there.

**CITES FIGURES.**

"Now, if nearly five-sixths of the students of the University of California need medical advice or treatment on an average of nine times a year, and get it at a total expense of \$5 a year, what is the situation as regards members of the community in general? Unquestionably, they are just as frequently in need of medical advice as the students of the university, but they do not get it. Instead, the vast majority of the community put off seeking a physician until illness has become serious or even fatal. "Can we not develop the health institutions of Alameda county in such a way that the opportunities of medical and hospital care, with all the great advantages of 'group medicine,' whereby the individual is cared for by a group of specialists, and not limited to the advice of a single general physician, may be extended to all the members of the community? The increase in the efficiency of the individual and in his well-being, the prevention of the loss of a large and skillful man, the reduction of the amount of charity, public and private, resulting, would prove such a development of our health institutions to be the wisest and most profitable investment of public funds ever undertaken by any American community."

## PETER G. LOUCKS CALLED BY DEATH

MARTINEZ, July 6.—Peter G. Loucks of Pacheco passed away at Boyes Springs July 4, after a lingering illness. The remains were shipped to Martinez and will be taken to the family residence, Pacheco, where the funeral will be held tomorrow afternoon at 2 o'clock and the interment will be in the Pacheco cemetery.

Loucks complained of feeling indisposed a short time ago and went to Boyes Springs to be with his son. While he had been feeble for some months it was thought that a change of climate would improve his health. He failed to rally, however, and passed away Wednesday.

Decided was a native of Montgomery county, New York, and was 75 years old. He left New York on November 11, 1851, on the steamer Georgia for charges with his parents. He arrived at Chagres and crossed the isthmus and boarded the steamer Tennessee at Panama City, arriving at San Francisco December 17, 1851. With his parents he went to Sacramento and thence to Big Oak Flat and remained there until 1857, when he came to Contra Costa county and settled on the Pacheco homestead.

Loucks displayed unusual activity in matters pertaining to farming and was long recognized as a leader among the people of the Pacheco section.

Decided was the father of Mrs. C. L. Woodward of San Francisco, George Loucks of this county, and was the brother of Miss Annie Loucks, Mrs. W. A. Seares of Porterville, and the late Frank L. Loucks.

## NATIVES RAISE FLAG ON DIABLO

MARTINEZ, July 6.—Five members of the "Diablo" party, No. 101, Native Sons of the Golden West, of the Golden Gate club, climbed the concrete flag pole, put a steel cable through the pulley, and the big American flag, which had been in the parlor was hoisted to the breezes and now flies from the highest point in this part of the state.

The local natives, James F. Hoer, C. H. Henderson, G. T. Barkley, F. R. Jones and J. R. Booth, left here yesterday morning early and soon reached the summit. Arriving at the top, the cable was then slid safely back to mother earth. The flag will fly continuously until the wind whips it to shreds, then Barkley will be called upon again to climb.

## 'SILVER THREADS' AND GRAY IN HAIR?

Let Q-Ban, A Simple, Safe, Sure Preparation, Bring Natural Color and Hair Health. Not a Dye.

Here is a safe, clean, beautiful and certain way to restore the natural color to gray or faded, lifeless hair—the method in perfect good taste and accepted by America's foremost people. Q-Ban is all ready to use. It is sold under guarantee of satisfaction or money back. Only 50c for a large bottle at the Owl Dye Stores or Normal Pharmacy, 8th and Washington sts., and all good drug stores.

Q-Ban Hair Tonic, Q-Ban Liquid Shampoo, Q-Ban Toilet Soap, also Q-Ban Depilatory (odorless) for removing superfluous hair. Send for free illustrated book of lectures, "Hair Culture."—Advertisement.

## VALUABLE BIBLE IN LOOT FOUND IN POLICE RAID

SAN FRANCISCO, July 6.—Five trunks full of loot of the value of \$10,000, and ranging from a string of pearls to a family Bible, was spread out in the property clerk's office for identification this morning. It is probable that the pearls would bring the best price at public auction, but the Bible is the most valuable individual article in the long list. It bears the name of Polindexter and the date 1807, and contains a long family tree with many of the names and a careful record of the births, deaths and marriages of quite a large scattered family.

The loot was confiscated by the police, the apartment of Richard Rankin who has just been sent to San Quentin penitentiary for four years for ransacking the home of Mrs. K. Schultz, 400 Bush street. Many articles stolen from the Bible have already been claimed, but today was the first opportunity the police had to unpack the trunks and segregate the articles for identification.

## REALTY BOARD WORKS SAVING

Oakland real estate men saved the taxpayers of the city a matter of \$19,500 on recent park purchases, according to a copy of a resolution of the municipal board sent today to the Oakland Real Estate Board, representing some 100 realty dealers of the city.

The saving was effected in the matter of property appraisals extending over a period of a year. The real estate board at the request of park board started appraising prospective park property shortly after the realty men formed the new organization, a year ago. Experts, having no property interests in the district affected, were selected to estimate valuations suitable for park purposes and file a report. The work was to be done under the chairmanship of S. H. Masters of the Layman Realty Company.

Property in Elmhurst, Fruitvale, Rock Ridge and other locations in the city were included. In most cases it was found that the real estate board's figures were lower than the quoted prices of the various owners. In practically every case the park board accepted the realty board's valuations and made the purchase. A resolution passed at its last meeting, the park board thanked the realty men for service rendered.

The real estate board appraised the California College property recently purchased by the county for a new county hospital site at \$25,000, considered an investment income property. It approved the final purchase at \$35,000 as allowing a fair increase for public utility or non-investment purposes.

## IDENTITY MYSTERY OF AUTO VICTIM

SAN FRANCISCO, July 6.—The police and officials of the coroner's office are puzzled over the failure of any of the persons who have called at the morgue to identify a man who was killed by a jitney at Golden Gate and Hyde street on Tuesday. Minus his coat and hat and attired in overalls as though he had just come from one of the nearby auto repair shops or tire vulcanizing plants, the man was riding a bicycle when the machine struck him. Somewhere his coat and hat must have been lost and someone must know where a man with a bicycle has been lodging. Despite this fact, his body still lies at the morgue without any information whatever having been furnished the authorities.

The deceased was about 30 years old, 5 feet 8, dark hair and weighed about 150 pounds. He was clean shaven with gray eyes, a pointed nose and round chin. His clothing overalls are of the sort worn by men employed in the garage and Co. Co. of them has been reported missing and several of the officials who have called at the coroner's office have failed to make any identification.

## DIES AT MARTINEZ

MARTINEZ, July 6.—Mrs. Eva Richewitz, mother of Mrs. M. Perez of this city, died yesterday at the home of her daughter on Ward street. Mrs. Richewitz was a native of Luxembourg, 67 years old and had lived in Martinez for eleven years. She is survived by Mrs. Perez and Mrs. Anna Tello of Washington state, the following grandchildren: William, Mollie, Nellie and Buddy Tello, and a brother, Bernard Ludwig, who lives in France.

The funeral was held today afternoon at St. Catherine's Catholic church for services and in St. Catherine's cemetery for interment. The pallbearers will be George Winkelman, John Marchetti, W. Reuser, A. D. Joslin, C. H. Hayden and C. H. Hayden.

## WOMAN PILOT

ALAMEDA, July 6.—The first bay pilot license ever granted to a woman in Alameda county was received this morning by Mrs. Esperanza C. Pyle from the office of the United States inspector of aviation, H. H. Boller, San Francisco. The license gives Mrs. Pyle the right to captain and steer in San Francisco bay any vessel not exceeding about 150 tons.

According to the new feminine pilot, she will not begin a seafaring career, but rather will command craft on special occasions or for her own pleasure. Mrs. Pyle resides in this city.

## TWO ARE INJURED

SAN MATEO, July 6.—J. F. Killelea of San Mateo and W. B. Reif of Long Beach were both injured at noon today when their automobiles collided in Burlingame. Reif's car was wrecked. Neither man was dangerously hurt.

**HIT BY CAR.**

SAN FRANCISCO, July 6.—Nat. Wenshauer, who lives in Oakland, and who is employed as a tailor by Clayberg & Co., 126 Post street, was struck by a car at Market and Steuart streets this morning and seriously hurt. He was taken to an unconscious condition to the Harbor Emergency Hospital.

## BATTLE THRILLS TOLD BY STUDENTS

(Continued From Page 13)

quivering flash and the noise was a continuous shaking rumble. The thought came to me that it was like being close to a spraying jet of an oil-burning furnace as it roars and rumbles.

The next time I was on night duty we went out in a driving rain and windstorm. The roads were slimy and slippery. I drew the first number and had to make the only call of the night. I brought in a poor Frenchman with his face burned to a cinder, his eyes hollow and his lips drawn back over his teeth—done by German liquid fire. In my diary is a big, hearty cussword and I remember how I felt that night.

On the 7th, as we were all loafing around in our dirty clothes and disorderly rooms, Muhr appeared, saying that the general was due to arrive in ten minutes. We changed our clothes quickly and got everything in order. Then we waited and waited and waited.

Finally Muhr came around and said that the general had come and gone. He told Muhr to have us clean up the back yard. We were waiting for him in the front yard. Some general.

**MASS CELEBRATED.**

Last Sunday was an interesting day. I was on duty at the post all day with Strong. At 9 a. m. mass was celebrated in the shack. About 20 men attended. There was an altar of a table and some candles and candles and ornaments. A school-teacher-priest-officiated, all in white garments. It was very impressive there in the rough shack, with hanging men in blue, men and officers, gas masks hanging at every belt. It was serious and earnest. Once in a while we could hear the distant booming of guns. That seemed to be a service to England.

There are a million rumors around us all the time. The big success of the British, before it was confirmed, varied in detail from 5000 to 11,000 prisoners. I mean the British advance at Lens. There is a rumor now about our moving. It's all the same to us. All we can do is to speculate.

## RUSS WOMEN IN 'DEATH LEGION'

PETROGRAD, July 6.—Russian women who took the stern oath to do or die when they joined the "Legion of Death," had a hard time making up their minds to cut their hair short, man fashion. At Petrograd agreed today that it was this cropped head idea that made the women members embarrassed as they paraded yesterday—the first time in history, probably, an active fighting force of women, trained and ready for the front—was formally received into the ranks of the nation's warriors.

The public agreed that the feminine fighters were more embarrassed by the loss of their hair than by the trousers they wore. The "Legion of Death" is composed of 400 university students and society girls. They wear a uniform exactly like the male Russian soldier. They paraded yesterday through the Nevsky Prospect en route to receive a blessing at the Church of St. Isaac, armed with rifles and carrying a regimental standard. A dozen bands heralded their progress and five thousand Cossacks formed an escort of honor.

Russia's only objection of the recent dynamic changes in Greece is that Prince Alexander succeeded to the throne without a plebiscite. An official foreign office statement today declared free Russia approved of Constantine's abdication, but held that the nomination of his successor was contrary to the Greek constitution and the rights of the people alone to determine the form of their government.

## BRITISH CAPTURES FAR EXCEED LOSSES

LONDON, July 6.—Since the beginning of the war the British have captured 117,775 prisoners, exclusive of natives taken in the African campaign. Many of whom have been released, said Major General F. B. Maurice, director of military operations, at the war office today. The British have lost to the enemy 51,000 men, including Indian and native troops.

The British have captured 739 guns during the war, and lost 133. Of the guns lost 37 were captured, and of the 96 remaining in enemy hands 84 were lost to the British on the west front early in the war.

"The British have not lost a single gun on the west front since April, 1915," said the general.

## PACKERS TO AID FEEDING TROOPS

CHICAGO, July 6.—The best of meats at reasonable prices was promised the government to feed its war forces by representatives of all the leading packing interests of the United States, who conferred here today with Julius Rosenwald, chairman of the committee on supplies of the National Council of Defense.

"The spirit shown was that of Rosenwald said after the conference. The packers were unanimous in declaring their desire to serve the government in every possible way."

Brigadier-General Abiel L. Smith, in charge of the quartermaster's department of the army, and Lieutenant Commander J. M. Hancock, of the navy, represented their organizations at the conference.

## WELCOME MISSION

BILLINGS, Mont., July 6.—The Belgian war mission, after two days' riding through the grain belt on their special train will reach Butte, Montana, at 5 p. m. tonight. The welcome of the envoys at the principal stations along the line was the most hearty. The Belgian flag has been prominently displayed, while delegations of citizens have met the train at stopping points.

## MISS RANKIN SEEKS TO BETTER WOMEN'S WORK

WASHINGTON, July 6.—Miss Jeanette Rankin plans to ask a congressional investigation of working conditions among women at the bureau of engraving and printing, in a speech scheduled for Monday in the house. "At the same time she will introduce a resolution asking an investigation of hours women in the federal money and stamp printing bureau are employed daily."

Washington has been stirred for a week by Miss Rankin's exploit in going on a three-hour tour of the bureau—as simple "J. Rankin" with Jack Connolly of Boston, secretary to Representative Carter C. Cassingham, through a lenient military censorship and upon its arrival in America may be given out to the newspapers by the relatives or friends.

The only exception to the general staff's ruling, according to plans outlined today, will be in event of exceptional cases where individual acts of bravery or devotion to duty may possibly be communicated to the press officially at a later time. This will not happen, however, until American troops have been actually under fire.

PARIS, July 6.—Bases for training of aviation, artillery, infantry and medical units were opened today and started at once the education of portions of Pershing's "Sammy's" for the front.

## WAR SERMON IS SUPPRESSED

LOS ANGELES, July 6.—Printing of a sermon against war, which was delivered May 6 last in the Highland Park Methodist church here by the Rev. T. F. Tanner, minister of Pasadena, caused members of the congregation to raise a cry of "treason" and leave the church, was stopped by orders of local agents of the department of justice. Five hundred of a total of 5000 copies ordered had been printed when the work was stopped, it was said.

The Rev. Tanner visited the office of the United States district attorney and sought to have the order rescinded, but was informed by George Lawson, assistant United States attorney, no action could be taken until an investigation had been made. Tanner stated, according to Lawson, he wished to distribute copies of the sermon at lectures he planned to give against war.

An introduction to the sermon was written by Miss Fannie Bixby, daughter of the late John Bixby, wealthy resident of Long Beach, Cal., according to department of justice agents.

## CASUALTIES GREAT

PARIS, July 6.—The total number of Germans killed from the beginning of the war to March, 1917, is not less than 1,600,000, according to an estimate released by a French general headquarters. This computation has been made after careful study of documents bearing on the subject.

## SENTRY IS KILLED

GREAT FALLS, Mont., July 6.—Jacob Lee, 23 years old, a member of Company D, Second Montana, was found dead today at the approach to a railroad bridge where he had been acting as sentry. There was a bullet hole through his stomach. An investigation is being made.

## CLAIMS INVENTION TO CUT 'GAS' COST

WASHINGTON, July 6.—"The gasoline problem is solved. I can increase the gasoline production of the United States from three billion to nine billion gallons a year. I can furnish gasoline to the government at one cent a gallon."

These were the rosy promises to Secretary of the Navy Daniels today by Louis Bond Cherry, scientist and inventor, of Kansas City. Cherry submitted to Secretary Daniels samples of gasoline produced by a new process he has discovered, with the report of a committee of scientists that examined the process at the Cherry plant at Coffeyville, Kan., and gave it their O. K.

Cherry submitted alternate proposals to the Secretary of the Navy. First—that the government commandeer crude oils, build the apparatus required by the process and permit him to go ahead, giving him a profit of one cent a gallon on all gasoline produced. Out of the profits he would guarantee gasoline to the government at one cent a gallon and would repay the government all expenses incurred at the outset in the building of the plant.

Second—that the government pay him a flat rate of ten cents a gallon for gasoline and assist him in securing the materials with which to build the apparatus. "But for the shortage of materials, apparatus and the like," he told the secretary, "I could have the apparatus installed in every refinery in the country inside of a year."

When I came to Washington," Cherry continued, "I was told to take my process to the oil companies of the council of national defense. I looked over the list of these companies and found the biggest refineries in the country. The deal was to raise the price of gasoline to the government. That would be willing to reduce production but nothing is farther from their thoughts than to go into the war effort even at this critical time. I know I could do nothing with the council of national defense and decided to go straight over their heads to Secretary Daniels."

## MISS RANKIN SEEKS TO BETTER WOMEN'S WORK

WASHINGTON, July 6.—Miss Jeanette Rankin plans to ask a congressional investigation of working conditions among women at the bureau of engraving and printing, in a speech scheduled for Monday in the house. "At the same time she will introduce a resolution asking an investigation of hours women in the federal money and stamp printing bureau are employed daily."

Washington has been stirred for a week by Miss Rankin's exploit in going on a three-hour tour of the bureau—as simple "J. Rankin" with Jack Connolly of Boston, secretary to Representative Carter C. Cassingham, through a lenient military censorship and upon its arrival in America may be given out to the newspapers by the relatives or friends.

The only exception to the general staff's ruling, according to plans outlined today, will be in event of exceptional cases where individual acts of bravery or devotion to duty may possibly be communicated to the press officially at a later time. This will not happen, however, until American troops have been actually under fire.

## BOYS IN FRANCE CAN WRITE FULLY

PARIS, June 17 (by mail).—Information relative to the individual members of the American expeditionary force in France, will not be permitted in the news cables. The general staff announced today that such news must be transmitted to the folk at home by the officers and men themselves, not by the newspapers.

The fighters will be encouraged to write fully and often to those who are interested in them. This mail will pass through a lenient military censorship and upon its arrival in America may be given out to the newspapers by the relatives or friends.

The only exception to the general staff's ruling, according to plans outlined today, will be in event of exceptional cases where individual acts of bravery or devotion to duty may possibly be communicated to the press officially at a later time. This will not happen, however, until American troops have been actually under fire.

This will not happen, however, until American troops have been actually under fire.

## SEARCH FOR FIEND

DETROIT, Mich., July 6.—Led by 300 members of the Sixth Reserve Regiment, United States engineers, who have been stationed here, a posse of 500 men began at sunrise today to search what is known as Parmenter wood, a tangled forest near Birmingham, Mich., for the murderer of little 13-year-old Hope Alexander, who was killed while gathering flowers in Sylvan Garden on the Fourth of July. It is thought the fiend is in the thicket and if he is there is no escape for him, as it is entirely surrounded by the hunters.

## HELD AS PLOTTER

SAN ANTONIO, Tex., July 6.—Charged with circulating literature tending to organize Mexicans for offensive and defensive warfare on the United States, Jose Quiroga was arrested this afternoon by United States Marshal John Dibrell, on complaint of the Department of Justice. He waived examination and bond in sum of \$2500 was furnished. Quiroga, according to Dibrell, is a brother of the late General Miguel Quiroga, who was prominent in the Reyes revolution in Mexico.

## What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Littleton, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment. Genuine Castoria always bears the signature of *Chas. H. Littleton*

# The Weather

Forecast till 6 p. m. Saturday:  
Northern California—Tonight and Saturday fair, except cloudy or foggy tonight and in early morning; moderate westerly winds.  
Santa Clara valley—Tonight and Saturday fair, except cloudy or foggy tonight; moderate northerly winds.  
San Francisco valley—Tonight and Saturday fair; warmer south portion tonight; moderate northerly wind.  
Northern California—Tonight and Saturday fair except cloudy or foggy tonight and in early morning along the coast; warmer interior central portion tonight; moderate northerly wind.  
Southern California—Tonight and Saturday fair, except cloudy or foggy tonight and in early morning near the coast; moderate westerly wind.  
For Nevada—Tonight and Saturday fair; cooler tonight in north portions.  
Oregon—Tonight and Saturday fair; moderate northerly wind.  
Washington—Tonight and Saturday fair; moderate westerly wind.  
Idaho—Tonight and Saturday fair, except showers in southeast portion; cooler tonight in south portion.

A trough-shaped depression extends from California northeastward to Sas-

Katchewan and thence southeastward to  
 the southern Mississippi valley. The high  
 pressure area is approaching the North  
 Pacific Coast and the barometer continues  
 relatively high over the North Atlantic  
 States. Showers and thunder storms have  
 occurred in the Upper Mississippi Valley,  
 the Gulf States and in portions of Kan-  
 sas, Oklahoma and Western Montana. It  
 is warmer in Southern and Eastern Ore-  
 gon, Southern Idaho and Northern Ne-  
 vada. Elsewhere the changes in tempera-  
 ture have been unimportant.  
 Conditions are favorable for fair weather  
 in this district tonight and Saturday.  
 In the south, in southeastern Idaho, where  
 it will be showery. It will be warmer in the  
 Southern Idaho tonight.

## DUELING POPULAR

BUENOS AIRES, June 10.—(By Mail).—Items like the following, which appeared in the Buenos Aires Herald recently, are seen frequently in the Argentine press: "In the 'quinta' (dooryard) of

Dr. Decasse, a prominent lawyer, situated in Belgrano (a Buenos Aires suburb), a duel with sabres was fought yesterday between Senores Manuel Rocca and Ezequiel B. Casbas before several witnesses. Senor Rocca was wounded slightly in the first assault, when the duel was called off and the antagonists

became reconciled upon the field of honor." For hitting a man with your fist, if blood is drawn, the minimum Argentine penalty is six months' imprisonment without the option of a fine, but the police never pay any attention to duellists. Argentine duels, too, sometimes result fatally.

## FAIR SWIMMERS GET SWAGGER SETS

BY MARGARET MASON.

(Written for the United Press.)

Mother, may I go out to swim? Yes, my darling daughter. But be sure to take your rubberized scarf. Your bathing wrap. Your beach cushion. And your beach umbrella. So you'll be attired as you'd ought to be.

There's nothing to it. If you want to be in the swim this season you'll need accessories of your bathing costume. A bewildering array of beach cushions, round, oblong, on the square or oval in gray, cream, green, blue, and white. Tapestries are all matched up with accompanying bags to hold your knitting and beach umbrellas to keep off the ardent sun and attract the no less ardent son. To be a success on the sands or in the surf you simply must have one of these swagger sets. You can pick the shape of your cushion to suit your own outlines.

Then there are the stunning bathing wraps, satin or crepe with a rubberized lining. Modern sea nymphs are all wrapped up in these dashing toga like garments. Some are in one-piece, some in two-piece, some in three-piece. They are all conspicuous for the richness and vividness of that one-toned hue while others are a mass of colorful and modernist design that would make a scene from the Russian ballet look sick and pallid. Divers are bound around the edges with a contrasting tone while again a fringed finish is a favorite.

STYLE RUBBERIZED. If you are wearing one of the new finger scarfs of United Rubber with a border of squares or dots in a contrasting tone you can turn almost as an effective cold shoulder and a much less involved one than when all done up in one of the voluminous bath wraps.

As for the bathing suits themselves they are surprisingly simple, serviceable and sensible this year. They are almost invariably a little straightened one-piece affair of jersey satin or taffeta with the accent on the jersey and the straight straight knickers of matching material.

The jersey ones which are particularly smart are banded around the sleeves, armholes and the neckless neck and the knee-length hems with embroidered designs of worsted in brightest shades.

The taffeta suits of black or blue are most effectively plain with a piping of gayly colored figured silk kept all on edge or a wide band of the same material, striped, plaid or Oriental designed silk.

SUITS TAKE PALM. Shades of Miss Cleopatra Ptolemy but take the palm (of course, a date palm) for being up to date by reverting to the most ancient date. Smartest things in bathing suits in the Nile and in the days of the Ramesses have been dug up for our 1917 adornment. The suits are of satin will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any drugist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the drugist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.—Advertisement.

## Freckle-Face

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any drugist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the drugist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.—Advertisement.

## YOUNGER MEN PREFERRED AT TRAINING CAMPS

WASHINGTON, July 6.—"In view of the tendency on the part of well qualified men under 31 and men without military experience to hold their applications for the second series of officers training camps because of apparent misunderstanding of the War Department's memorandum of information dated June 4, 1917, General McCain, the adjutant general has issued the following statement:

"The statement that mature men will be given preference for the second series of officers' training camps, seems to have been misunderstood in some quarters. This preference will only apply where qualifications are equal. There is no intention to bar out applications by men under 31. In fact, examining officers have been instructed to regard the ages of 25 to 35 the most suitable. There is also some misunderstanding about the necessity of previous military experience. The government is looking primarily for intelligent and forceful men and military experience, though desirable, is not strictly necessary." Applications for these camps will close July 15.

## FOR AERO SCHOOL

SAN MATEO, July 6.—An offer of free use of 1200 acres of land near San Mateo for an aviation school was telegraphed to the War and Navy Departments at Washington today by Leslie Whitney of San Mateo. Whitney estimates 900 acres of the land is suitable for an aviation school and the remainder for hydroplane work. Two thousand additional acres will be made available if the government so requests.
